

Speaker A - 00:00:01

Oay go my water bottle.

Speaker B - 00:00:03

Okay, just go ahead and say something.

Speaker A - 00:00:06

Hello.

Speaker B - 00:00:07

Okay.

Speaker C - 00:00:09

Hu. Please find my grandson. I'm sure you're doing everything you possibly can.

Speaker B - 00:00:15

And then when you're done, just hit stop.

Speaker A - 00:00:18

Okay.

Speaker B - 00:00:19

If you want to continue on, just hit record.

Speaker A - 00:00:28

Okay. So, Deborah.

Speaker C - 00:00:31

Yes.

Speaker A - 00:00:31

So you're Liam's grandmother. Right.

Speaker C - 00:00:35

Okay.

Speaker A - 00:00:36

And I was wondering, has Liam ever walked away from home before?

Speaker C - 00:00:44

Not just from home. From a couple of times. From situations? Once. I can think of two in the last couple of years. One, we had a lot of people over the house and I noticed he was gone. There were a lot of people and he was gone. And he was gone for a bit of a while and then when people started leaving, he. He came backk. He'gone for quite a while.

Speaker A - 00:01:29

And is it because of a large group of people that made him uncomfortablekay?

Speaker C - 00:01:35

And the noise.

Speaker A - 00:01:36

Does he and the noise. Do you know where he went the last time?

Speaker C - 00:01:47

Wandered around for blocks, I guess.

Speaker A - 00:01:51

Just in the neighborhood, I guess.

Speaker C - 00:01:53

So he wasn't, you know, he calls it daydreaming and he said he daydreamed around.

Speaker A - 00:02:04

Okay. And has he been to this park before?

Speaker C - 00:02:07

Yes.

Speaker A - 00:02:07

Okay. Does he come here frequently?

Speaker C - 00:02:09

Fairly frequently. I started bringing him when he was little.

Speaker A - 00:02:13

Oh. Oh, that's nice. Okay. What does he like to do at the park?

Speaker C - 00:02:18

He likes to look at the geese and the docks.

Speaker A - 00:02:21

Okay. Any particular area? The park?

Speaker C - 00:02:25

He likes most of it. He likes the dog park.

Speaker A - 00:02:29

The dog.

Speaker C - 00:02:29

Dog. He likes the ducks and the geese. He likes to look at the kids playing. He calls them littles.

Speaker A - 00:02:40

Littles. Okay.

Speaker C - 00:02:41

That's what he calls small. That's important.

Speaker A - 00:02:44

Yeah. Okay. Oh, sorry. He likes little children.

Speaker C - 00:02:51

Yes. Like he like.

Speaker A - 00:02:54

And does he. Does he have brothers and sisters? Ok. Only my nephew is an only child and he really, really just gravitated to her younger children.

Speaker C - 00:03:03

I was an only child.

Speaker A - 00:03:04

Yeah. Okay. So has he ever gone missing overnight outside of the home at, you know, other gatherings before?

Speaker C - 00:03:16

Never overnight, no, but live within the last year or so. He.

Speaker B - 00:03:24

He did leave interrupt for two seconds here. So Tom's go going to be recording on our system.

Speaker A - 00:03:31

Okay.

Speaker B - 00:03:32

Kind of like what you were doing the last time.

Speaker A - 00:03:33

Yeah.

Speaker B - 00:03:33

So he's go going to be doing it. Stay where you are.

Speaker D - 00:03:37

Okay.

Speaker A - 00:03:37

Keep doing what you're doing.

Speaker D - 00:03:38

Ok.

Speaker A - 00:03:38

Okay.

Speaker B - 00:03:39

He just shadowing is just shadowing Be interrupting.

Speaker A - 00:03:44

I might not keep up.

Speaker D - 00:03:45

Feel free to move that if it's in your way.

Speaker B - 00:03:47

Do the best you can. Yep.

Speaker A - 00:03:52

Make sure it get started o be.

Speaker B - 00:03:56

Advised that every quarter is very sensitive.

Speaker A - 00:03:58

So I think you. So, Wendy, could you go go and form ops that he gravitates to the dog park. He likes the ducks and geese and he likes going to where the kids are playing. Yep. And little. That's a good.

Speaker C - 00:04:16

You said look at water.

Speaker B - 00:04:18

I'll let you do.

Speaker A - 00:04:19

I'm sorry, Deb.

Speaker C - 00:04:20

Let's look at water.

Speaker A - 00:04:22

Oh, and look at water.

Speaker C - 00:04:23

Wendy.

Speaker A - 00:04:29

Any particular part of the park, of the water features that he likes?

Speaker C - 00:04:34

He does like to swim. Like I said, he loves the pond. He. Like I said, I've taken him here over the years and we walk around the pond.

Speaker A - 00:04:53

He likes to walk around the pond. Does he like to walk a lot?

Speaker C - 00:04:58

Sometimes. A lot of the time. Outside to walk? Yeah. Again, he calls it a d. Sometimes he's focused on looking at the ducks and the kids and everything. And sometimes he just daydreams.

Speaker A - 00:05:15

He dayd drams while he walks? Sometime sometimes. But not mostly.

Speaker C - 00:05:21

I don't ask.

Speaker A - 00:05:23

No.

Speaker D - 00:05:23

Okay.

Speaker C - 00:05:24

If he's continuously walking, then he's daydreaming and kind of wandering. Sometimes he is looking at the docs or the littles or the dog.

Speaker A - 00:05:35

Okay. I love that term, calling them littles. Okay. And does he tend to his walking pattern? Seems to be repetitive.

Speaker C - 00:05:44

Sometimesk.

Speaker A - 00:05:50

So I hear you look after him during the day.

Speaker C - 00:05:53

Yes. Since he was just about four, a little himself.

Speaker A - 00:05:57

Yeah. You must have a really special relationship with him. Yes. That's. That's wonderful.

Speaker C - 00:06:02

Especially young man.

Speaker A - 00:06:03

Yes, it sounds like he is. So has he ever expressed to you any difficulties at school with his peersthing?

Speaker C - 00:06:15

He doesn't usually talk about things like that. If he's, you know, if he has too much math homework, health, he might comment on that or if he's having trouble writing an English essay or something like that. But otherwise, no. I did ask once to ask him if he'd ever been bullied.

Speaker A - 00:06:48

You asked him if he had?

Speaker C - 00:06:49

Yeah.

Speaker A - 00:06:50

Okay.

Speaker C - 00:06:50

And he said yes. And I said how did you react? What did you do? And he said I walked away.

Speaker A - 00:06:57

Walked away.

Speaker C - 00:06:58

Okay, you have the hang of it.

Speaker A - 00:07:02

Did he walk away to avoid the situation or did he walk away to escape or I should say, did he walk away just to not get involved or did he walk away to run away kind of thing?

Speaker C - 00:07:16

Just to not get involved.

Speaker A - 00:07:17

To not get involvedk.

Speaker C - 00:07:20

It's my interpretation.

Speaker A - 00:07:21

Oh, okay. Do you know in that instance whether he just went home or.

Speaker C - 00:07:29

That'S a good. I think it happened at school and he just.

Speaker A - 00:07:32

Just went to somewhere else on the school ground. Ok.

Speaker C - 00:07:36

I believe that's what happened.

Speaker A - 00:07:39

And then.

Speaker C - 00:07:41

But he just mentioned it just at once.

Speaker A - 00:07:44

So I know they weren't supposed to have any communication devices like a phone or a tablet at the here. Did he. Do you know if he did have one with him?

Speaker C - 00:07:56

As far as I know he had nothing.

Speaker A - 00:07:58

Okay. And then also. So he has a good friend named Sophia.

Speaker C - 00:08:04

Yes.

Speaker A - 00:08:05

Okay. Are they close? They are good friends.

Speaker C - 00:08:08

Yes, they're good, good friends.

Speaker A - 00:08:09

They trust each other and everything as.

Speaker C - 00:08:11

Far as I can tell.

Speaker A - 00:08:12

Okay. Yeah. Have you ever met Sophia?

Speaker C - 00:08:16

Occasionally, not very often.

Speaker A - 00:08:18

Okay. She's a nice.

Speaker C - 00:08:20

She seems very nice.

Speaker A - 00:08:21

Nice young lady.

Speaker C - 00:08:21

Ok.

Speaker A - 00:08:22

Yes, yes. So he likes to look around the pond and does he go to the pool at all?

Speaker C - 00:08:30

Yes, he likes just when I've taken him to the pool.

Speaker A - 00:08:33

Okay.

Speaker D - 00:08:33

He does like to sp around how to swim.

Speaker A - 00:08:37

So he's attracted to water and he likes to walk around the pond. And sometimes his walking pattern will be repetitive, so just a continuous kind of path.

Speaker C - 00:08:50

Sometimes yeah, sometimes, but sometimes.

Speaker A - 00:08:52

And that he has been bullied in the past.

Speaker C - 00:08:55

Just that one.

Speaker A - 00:08:56

That one time that you're aware. So the pond, the water attraction and pond. That should be something that I told.

Speaker C - 00:09:09

Yeah.

Speaker A - 00:09:10

Okay. Do you have any idea what he brought for clothing to the.

Speaker C - 00:09:16

No, I didn't pack him.

Speaker A - 00:09:18

Okay. Okay. What do you think? Because you spend a lot of time with your grandson and I'm sure he. You become a confidant of his, right? I like to sure get a little grandmother spoiling in there. Right.

Speaker C - 00:09:37

So go.

Speaker A - 00:09:38

Where do you think he might have gone to? Like where do you think he would be right now?

Speaker C - 00:09:48

I don't. No, I don't. Whether he wanted it check out the pond or he likes to go to the dog park and watch the dogs. That may have been it. He may just, I don't know, have felt the need to daydream. Maybe, like I said, maybe he just wanted to walk around the pond or I don't know, it's a little chilly to go swimming, but I don't know.

Speaker A - 00:10:25

Does he have a good sense of direction?

Speaker C - 00:10:30

Sometimes yes, sometimes no.

Speaker A - 00:10:32

Okay.

Speaker C - 00:10:32

It depends if he's focused on going somewhere or just wandering. Sometimes he wanders.

Speaker A - 00:10:40

He kind of gets in that daydream state. Okay. If he's daydreaming as he a little disconnected from what's going on around him a bit. All right. Does he know how to get home from here or to your home from here?

Speaker C - 00:10:55

He knows, I think how to get to his home from here. I only live a few blocks away.

Speaker A - 00:11:01

From where?

Speaker C - 00:11:02

From his house. He does know how to get to his home.

Speaker A - 00:11:05

Okay. So. And from there, would he know how to get to your home?

Speaker C - 00:11:09

I think so.

Speaker A - 00:11:10

Okay.

Speaker C - 00:11:10

I think so.

Speaker A - 00:11:12

If he had been bullied, do you think he would try to go home?

Speaker C - 00:11:17

I think he would just walk away. He would just daydream.

Speaker A - 00:11:21

He would just walk away.

Speaker C - 00:11:22

Okay.

Speaker A - 00:11:23

Okay.

Speaker C - 00:11:23

Like I said, there was just that one instance that he.

Speaker A - 00:11:26

Yeah. Okay. So safety for him, if he was feeling uncomfortable. Safety for him is walk. Just walking around. Okay. And this park is a safe place for him.

Speaker C - 00:11:37

He loves.

Speaker A - 00:11:38

Has some good memories, I'm sure. Right?

Speaker C - 00:11:40

We both.

Speaker A - 00:11:41

Yeah. Okay. Are there any other things in the park that he would enjoy doing and gravitate to or people?

Speaker C - 00:11:50

The dogs?

Speaker A - 00:11:50

Yeah.

Speaker C - 00:11:51

I don't think he knows. To the best of my knowledge. I don't think he knows any particular staff members here. I don't know if he's made any. You know, they're different people every day. So I don't think there are any.

Speaker A - 00:12:09

Particular people here at the park that he would. So does he know about his medications? He. Hes insulin. Right. Because he. Yes, he does.

Speaker C - 00:12:20

Twice a day. That's one of the things, obviously, that has me so concerned.

Speaker A - 00:12:24

Yeah. So does he know how to take it or does he need assistance with that?

Speaker C - 00:12:29

He does know how to take it, but I'm hoping. I don't know if he has it with him. I don't know obviously if he's taking it. I don't know if he's en. Anything ca. Because he needs to eat when he takes it. I don't know any of those.

Speaker A - 00:12:43

When does he normally take his medication?

Speaker C - 00:12:46

Twice a day, breakfast and dinner.

Speaker A - 00:12:48

Okay, so he would have had it with him. He would have had it. Some pact with him.

Speaker C - 00:12:53

He would have.

Speaker A - 00:12:53

Okay, so wend do we need to find out if medication doses are accounted for? So first, if he's ha. If he has it, they can confirm he has it with him here with his stuff. And then if all the doses are accounted for. So if he left it or not.

Speaker C - 00:13:16

With his belongings and again, if he has taken. If he does need to eat.

Speaker A - 00:13:20

Yeah.

Speaker D - 00:13:21

And who.

Speaker A - 00:13:22

Who would I. You could talk to search manager. Just say that he should have his. That that's something we need to confirm.

Speaker D - 00:13:32

Okay.

Speaker A - 00:13:33

Got it. Okay. You're doing great, Deborah. You. I hope I am too.

Speaker C - 00:13:41

You're doing great and thank you for wanting to. I know that you want. You're asking all these so that you have the best idea how to get him and find him.

Speaker A - 00:13:52

And I absolate he is our number one priority today. Is there any. We'll take just a brief moment. Is there anything I can get you?

Speaker C - 00:14:02

Oh, you're very sweet now.

Speaker A - 00:14:03

Thank you. Okay, the sun's coming up so I feel like it's warming up. So that's a positive.

Speaker C - 00:14:09

I'm hoping he's warm enough.

Speaker A - 00:14:11

Yes, I'm. Yeah, maybe. Hopefully he's found a nice sunny spot too to watch the sun wreck. Do you think he would have been interested in the sunrise at all?

Speaker C - 00:14:26

It could be. I don't know. It's a possibility.

Speaker A - 00:14:30

Does he have any interests in looking at views of things?

Speaker C - 00:14:34

Sometimes. Again, it depends what has meant whether he's. What his mental says that is. Okay. He could be.

Speaker A - 00:14:41

Yeah. Does he like to hide sometimes? Oay. If he's upset. Does he usually hide often? Okay, yes.

Speaker C - 00:14:53

Not not only hide, but pulling blankets over blankets and doing at home.

Speaker A - 00:15:09

Okay.

Speaker C - 00:15:09

If he's stressed he will. He can wrap it sometimes he wrap himself. Wrap himself blankets.

Speaker A - 00:15:20

Are there any, any buildings in particular that he enjoys or feels comfortable or safe in in this area?

Speaker C - 00:15:32

Oh, in.

Speaker A - 00:15:33

Well, like in the park.

Speaker C - 00:15:34

His. In the park? I don't know. I don't. I don't think so. Not that I could remember.

Speaker A - 00:15:42

Okay. If he was at home, if he had gone home, where would he go? Which part of the house would he go to?

Speaker C - 00:15:53

Probably in his own. Probably in his bedroom.

Speaker A - 00:15:55

His bedroom or needed kind of COVID up there. Does he have a key to your house? Is there a spare key that he would know about?

Speaker C - 00:16:06

Not that I know him.

Speaker A - 00:16:11

Who wrote this scenario? Wouldn't that be fun? That would be a fun little twist. He went to your house and he found the key under the doormat and he's been there all while.

Speaker C - 00:16:21

It could be.

Speaker A - 00:16:22

Yeah.

Speaker C - 00:16:23

O. I don't know.

Speaker A - 00:16:25

Does he have a key to his house?

Speaker C - 00:16:32

Good question. I don't know because when I'm with him, you know, I just unlock the door. I don't know.

Speaker A - 00:16:39

Oay.

Speaker C - 00:16:40

I don't know. And I don't know if he knows if there are any, you know, keys hidden. I don't know.

Speaker A - 00:16:50

And so his mom. His mom is away.

Speaker C - 00:16:54

She's out of time's my daughter. Yes.

Speaker A - 00:16:56

And then is. And his dad think is. Oh, his dad, your son in law. He's your. Okay, so your daughter is his mom'out of town. Okay. What does she do?

Speaker C - 00:17:12

She works in market research for Visa and she does a fair amount of traveling. So I spend a fair amount of.

Speaker A - 00:17:22

Does she know that is he has walked off?

Speaker C - 00:17:25

I don't. I didn't. I Haven't called her.

Speaker A - 00:17:27

Right.

Speaker C - 00:17:27

Ok. I suppose I should.

Speaker A - 00:17:34

I think I. Oh, sorry.

Speaker C - 00:17:36

Go ahead. I would. I kind of guessed my son in law would call it.

Speaker A - 00:17:43

Did you find out anything?

Speaker D - 00:17:45

Someone is heading out to the school to interview folks there so they're going to put that on my list of questions.

Speaker A - 00:17:50

And I have a couple things too. So if the home was searched and.

Speaker C - 00:18:02

That he does.

Speaker A - 00:18:03

I don't know if you let them know that he does know how to walk home.

Speaker D - 00:18:06

I did not.

Speaker A - 00:18:08

How to get there. And it is not known whether or not he has a key to the house. He does not have a key to the. To Deborah's house. And then we should see about whether or not we can get his dad over here. We can find the dad. Do have't. Do we have a. Let's see if the has. Remember we have Liam's phone number. Yeah. Do you know what Liam's cell phone number is?

Speaker C - 00:18:42

You mean Steve?

Speaker A - 00:18:43

Oh, no. Liam. Does he have a cell phone?

Speaker C - 00:18:48

No, I don't. I don't have a phone number for him. Know. I don't think he doesn't. I know he doesn't have any devices with him.

Speaker A - 00:18:55

Okay, but does he have a cell phone that he uses?

Speaker C - 00:19:00

I don't remember.

Speaker D - 00:19:02

I'm sorry, do you want me to go relay this information now?

Speaker A - 00:19:06

One second.

Speaker C - 00:19:06

Okay. I. No, he does not have a sa. He doesn't have.

Speaker A - 00:19:11

No. And do you know if he has any social media accounts like Facebook, TikTok?

Speaker C - 00:19:24

No, he does not.

Speaker A - 00:19:25

No social media.

Speaker C - 00:19:26

No, he does do gaming.

Speaker A - 00:19:28

Online gaming.

Speaker C - 00:19:28

He loves that.

Speaker A - 00:19:29

What kind of gaming does he love?

Speaker C - 00:19:33

What do the kids play? Please forgive me. I'm blanking out.

Speaker D - 00:19:40

Things.

Speaker C - 00:19:41

Yeah.

Speaker A - 00:19:41

I feel like that's 10. 10 years old.

Speaker D - 00:19:44

You'd be surprised.

Speaker C - 00:19:47

What is it? Mario Brothers? What if some. You can name some of the games and if they strike a chord. Like I said, please forgive me.

Speaker A - 00:19:56

Oh no, that's okay. I don't know any of that stuff. Okay. Does he.

Speaker C - 00:19:59

I don't play them either.

Speaker A - 00:20:01

Does he spend a lot of time. Does he ever talk about being in a community? I know they kind of do this online chatting and stuff.

Speaker C - 00:20:08

I know he plays a lot of the games and he plays a fair amount of the time and there I gather people that he plays those games with. I don't know whether he knows those personally or online.

Speaker A - 00:20:18

I believe it's just online, the headset stuff. Does he. Where does he play it and how does he play though? What does he use to play those.

Speaker C - 00:20:26

Games in his room and he has Two computers.

Speaker A - 00:20:29

He has a computer.

Speaker C - 00:20:31

Computers.

Speaker A - 00:20:36

Okay. No tablet or anything like that, like an iPad?

Speaker C - 00:20:42

I don't remember if he has a tag withr in my pn. I'm sorry, I don't remember.

Speaker A - 00:20:46

You should find out if the school provides a tablet to them or a laptop so a lot of schools do that now.

Speaker C - 00:20:53

Yeah, I do remember that the camp out was no devices then I do remember.

Speaker A - 00:20:59

Yes. Yes. We just need to confirm though that he or maybe another student wouldn't have something there. Okay, what would he. Would he be aware of any kind of hunger? That he might be having a hunger.

Speaker C - 00:21:26

Baby but yeah he does get hungry.

Speaker A - 00:21:30

Okay.

Speaker C - 00:21:31

A fair amount. He's growing. Yeah but so yeah he would be aware of that.

Speaker A - 00:21:42

And is he good about if he is hungry that he will seek some kind of nourishment or something or just does he ignore it?

Speaker C - 00:21:51

No. Nana, I'm hungry. I need another meal.

Speaker A - 00:21:58

Ye oay and what kind of food? You know it's the morning, it's breakfast time. What would he be gravitating towards?

Speaker C - 00:22:08

See he loves a big bowl of Cheerios with milk he likes blueberries on it. He sometimes he just ask for boat cheio so he's just hungry mid afternoon or whatever. OK He I do spoil hips and

sometimes I'll flip him up little square of chocolate or something but again because of the diabetes I have to be careful.

Speaker A - 00:22:46

Okay. Have you ever seen him when he was delayed in taking his medication.

Speaker C - 00:22:59

A bit and he gets tired kind of weak?

Speaker A - 00:23:11

Is it a pretty sudden onset or is it a gradual?

Speaker C - 00:23:17

It can. I've seen both the depends how low his sugar goes. It can be either. Usually it's gradual us.

Speaker A - 00:23:31

And about long how long after when he's due to take his medication does that start? Usually.

Speaker C - 00:23:45

It can be an hour or two or he can just kind of sort of ignore it for a bit.

Speaker A - 00:23:54

O and going in a couple and approximately what time does he take it? What time is his breakfast?

Speaker C - 00:24:01

His breakfast is usually around 7730 and that's when he takes it. And his dinner is around sixock six thirty and that's when he takes it.

Speaker A - 00:24:11

Okay. It'an hour just came in. Can we confirm that? I can't see what oh you know is this. Does he have those puma sneakers?

Speaker C - 00:24:31

I don't know. I I'm sorry, I don't know.

Speaker A - 00:24:36

Yeah. Okay. Do you know if he has dark dark color syerss or he have really bright flashies?

Speaker C - 00:24:41

Sn he's more into the darker.

Speaker A - 00:24:43

Okay.

Speaker C - 00:24:44

A he's not a flashy.

Speaker A - 00:24:46

Okay. And does he wear other puma? Do you know if he kind of gravitate? I know like the kids kind of have their branding that they like. Does he.

Speaker C - 00:24:54

I don't.

Speaker A - 00:24:55

I'm sorry. Oh, that's my. That's al right. Even. You're doing really well. Doing great here. Okay. If it kind of, you know, triggers something and you'llike. Oh, wait, yeah, I do remember seeing. Do you have any current pictures of him where you could see maybe if he's wearing those shoes?

Speaker C - 00:25:14

Oh, no, I don't have any current pictures at re wearing shoes.

Speaker A - 00:25:18

Ok. All.

Speaker C - 00:25:19

It's mostly just his face and his expressions.

Speaker A - 00:25:22

Okay. All right.

Speaker C - 00:25:25

Smile for the camera.

Speaker A - 00:25:27

Okay, so what happens with the medication when he has. Okay, so if he hasn't had his medication, what's gonna happen? But he gets tired. Is he gonna just stop and in place?

Speaker C - 00:25:46

It depends. Like I said, sometimes if he's daydreaming, he's not as much aware of it. So he might keep going.

Speaker A - 00:25:54

Okay.

Speaker C - 00:25:55

If he's doing something, you know, physical or something like that, it can hit him and he might kind of almost crash.

Speaker A - 00:26:08

So physical though, but something more intensive than the walking.

Speaker C - 00:26:15

Okay, but like I said, if he's walking, people gradually get weaker and more tired. Okay.

Speaker B - 00:26:32

Working for you.

Speaker A - 00:26:41

Wendy, can you go give him the information on the online gaming with the two computers and that his medication. He would have taken it 0700 or.

Speaker D - 00:26:51

07 30ah I gave Rob that information, but not about the gaming. I give him the times and he's gonna pass it on. Okay, he's working.

Speaker A - 00:27:03

What position is he?

Speaker D - 00:27:05

He's clues. But he's like. When I went in to talk to Michelle, she had't tell both of them.

Speaker A - 00:27:10

Okay, I should make sure.

Speaker D - 00:27:11

Yeah, yeah.

Speaker A - 00:27:12

No, I and that he will. He'll get. I.

Speaker C - 00:27:17

He's walking tactile is important. You asked how he suothes himself besides with the blankies and like I said, he has one blankie that just. He's had it since he was an infant. The fidgety things, you know fidget.

Speaker A - 00:27:36

Oh, the fidget. The squeez toys. Yeah. Oh, squish.

Speaker D - 00:27:40

Yeah. Like stress.

Speaker A - 00:27:42

Do you know what it looks like.

Speaker C - 00:27:45

He has one that's kind of a blue one and then he has several that are kind of multicolored.

Speaker A - 00:27:55

And are these balls? Are they.

Speaker C - 00:27:58

He has like a squish. He has a drab colored squish ball. But these are like. They look almost like spinners.

Speaker A - 00:28:06

Yeah, the spinners. Y. Yeah. Does he carry the ball one around with him a lot?

Speaker C - 00:28:13

U I don't. I don't know. I don't know. You know, sometimes it's home, sometimes it's not. Sometimes he just throws it in his backpack. I don't know where is.

Speaker A - 00:28:24

Would he have the blanket with him at the overnight?

Speaker C - 00:28:27

I would say probably that's a guess. Like I said, it's just a guess. Ye it's been washed so many times. It's the most faded blue you've ever seen and it's very, very, very well worn, very shabby. But like I said, he's had it.

Speaker A - 00:28:42

Since he was an entrance and it's the size of a baby blanket. Ye kind of thing. Okay. And is that. That's really special to him, right?

Speaker C - 00:28:53

Oh, yes.

Speaker A - 00:28:53

Okay. So he's going to hang on to.

Speaker C - 00:28:55

That as like I said, you know, we've offered to get him but no, this has always been his. And even though it's shredding, does he.

Speaker A - 00:29:05

Is that one of the things you said when he gets upset and he cowers and envelops himself. Would that be one of the items?

Speaker C - 00:29:13

Yes.

Speaker A - 00:29:13

Okay. That fidget. The fidget clue, the fidget devices and the. Definitely the baby blanket, if you can get that over to them, that's something they want to keep a look out for because that seems like a pretty cure thing for him. Okay. How are you doing, Deborah?

Speaker C - 00:29:34

I'm doing okay.

Speaker A - 00:29:35

Okay. All right. Thank you.

Speaker C - 00:29:37

Thank you for asking.

Speaker D - 00:29:38

I appreciate.

Speaker A - 00:29:38

Is anything. No water or anything or snack. I'm sure you haven't had your breakfast yet.

Speaker C - 00:29:46

As I was. I tend sometimes to have some low blood sugar, so I grabbe something but they.

Speaker A - 00:29:51

Okay, you have something. Okay. Because we do have some snacks and stuff. You.

Speaker C - 00:29:54

Oh, thank. If you need anything I For real I have. I may impinge youon okay.

Speaker A - 00:30:00

Because it is early in the morning for Saturday. Okay.

Speaker C - 00:30:06

And I am not a mourn person.

Speaker A - 00:30:09

Did you see Liam before prior to going to the overnight?

Speaker C - 00:30:14

I didn't see him yesterday, but I saw him the day before after school and we talked about it.

Speaker A - 00:30:20

Okay. What were his feelings about on the overnight?

Speaker C - 00:30:25

He was looking forward to it because he was supposed to meet a friend, I believe. But he was a. A little bit kind of. It's a new situation. He hasn't spent an overnight, you know, at a camping thing like this. So there was a little bit of. What's the word?

Speaker A - 00:30:50

Trepidationp.

Speaker C - 00:30:51

Not anxiety, but let's say a little trepidation.

Speaker A - 00:30:53

Okay. Mild though.

Speaker C - 00:30:54

Very mild. Yeah.

Speaker D - 00:30:55

Sorry. Can get. Can we get the dresses for a home and grandma's house.

Speaker A - 00:30:58

Absolutely. Do you have your. That seems like a big clue to me if looking up the edge address.

Speaker D - 00:31:08

Well, I think it might have been in relation to our providing that likes he knows how to.

Speaker A - 00:31:13

Exactly. Yeah.

Speaker C - 00:31:15

Okay. His house is 1023 Los Altos Avenue in Walnut Creek.

Speaker D - 00:31:22

Okay.

Speaker C - 00:31:22

And of course I'm at 456 Lenon Lane.

Speaker D - 00:31:25

Okay, thanks.

Speaker A - 00:31:30

Lenon Lane. That's over there, isn't it? That's where Kaiser is. Is that address and actually a Kaiser building? Is that address actually a Kaiser building? I wonder. It was just a random address I gave you. Okay. Do you know who the friend was he was looking forward to seeing? Was it Sophia?

Speaker C - 00:31:56

Yes.

Speaker A - 00:31:56

Soia. Okay.

Speaker C - 00:31:59

I think they were gonna go bike riding after the camp out.

Speaker A - 00:32:04

Okay.

Speaker C - 00:32:05

Yeah, I think they were gonna go bike riding after the camp out.

Speaker A - 00:32:08

Okay. Where are the bikes?

Speaker C - 00:32:11

I guess they had them with them. I guess the last I heard the plan was after the camp out they were going to a bike to I guess Heather farms and I guess Steve was supposed to pick them up there. I guess that was what plan was.

Speaker A - 00:32:29

The last I heard. Which part of Heather farms?

Speaker C - 00:32:31

I don't know.

Speaker A - 00:32:34

He met asap that he was going to. So you think he brought his bike?

Speaker C - 00:32:42

He did bring his bike. He did bring his bike.

Speaker A - 00:32:44

Okay. He brought his bike. Sophia. Also, and they were supposed to go bike riding after the camp up and they were gonna ride to Heather farms and then the dad was gonna pick him up. Okay, hold on one second.

Speaker C - 00:33:01

No.

Speaker A - 00:33:01

Yeah. What is this? Do you know what his bike looks like?

Speaker C - 00:33:04

It's gray.

Speaker A - 00:33:05

Okay.

Speaker C - 00:33:06

And it has specialized on it.

Speaker A - 00:33:10

Oh, it specialized. That's a good brand. Is it a regular bike or is it e bike?

Speaker C - 00:33:17

I think it's a regular bike. It's got some kind of gears on it perhaps.

Speaker A - 00:33:20

Oh, it's got gears. Okay. And is it like a mountain bike? You gu have really rugged looking tires.

Speaker C - 00:33:29

Or is it pretty smooth looking'think I don't think it's a mountain bike.

Speaker A - 00:33:33

Just kind of a basic gray. Is this a silvery gray or a dark grayark? A dark gray o and it just has like a flat handlebars like a normal. Not like a racing bike. Okay. Breaking away. Not like a breaking away bicycle. That's a great movie. I love moie okay, so his bike and his bike just ``ription. Is a gray Specialized. Okay. Okay. Because they need to be looking up.

Speaker D - 00:34:00

Yep, yep.

Speaker A - 00:34:01

And confirm with the camp director that they had their bikes. So did he bring himself To. Did he bring himself here with the bike?

Speaker C - 00:34:09

No, Steve dropped him off.

Speaker A - 00:34:11

Dropped him off. Okay. And then see if you can find out what's going on with getting Steve here for an interview o the dad.

Speaker C - 00:34:19

Steve hasn't been here.

Speaker A - 00:34:20

Oh. He's actually out looking for Liam. Yeah. So. But, you know, there's a lot of information we'd like to know. You know, just absolutely.

Speaker C - 00:34:30

Ask sptithing.

Speaker A - 00:34:32

Do you know if he wears a helmet?

Speaker C - 00:34:36

He's usually a rule follower, so. Good. Okay. Usually.

Speaker A - 00:34:45

He probably were't. Do you know what color's helmet might be?

Speaker C - 00:34:48

He has a couple of them, so that's okay.

Speaker A - 00:34:52

Yeah. All right. And then does he. Do you know if his bike has a light? Because it would have been dark.

Speaker C - 00:34:58

That's right. I don't remember.

Speaker D - 00:35:03

I'm sorry.

Speaker A - 00:35:03

Okay. No, no.

Speaker C - 00:35:04

Great.

Speaker A - 00:35:05

No. Deborah, you have given us so much information. This is fantastic. This is so helpful. So helpful. Definitely a lot of stuff that's come up that's really helpful. Does he. He likes to ride his bike a lot?

Speaker C - 00:35:24

Yeah.

Speaker A - 00:35:26

Does he usually take a path? Would he prefer the path over the street?

Speaker C - 00:35:33

Yes, he would prefer the path over a street, yes.

Speaker A - 00:35:35

Ok. Does he know the bike paths around here in the park?

Speaker C - 00:35:39

Yes, he. He does. Like I said, I've taken him here. I started in the stroller.

Speaker A - 00:35:45

Yeah. Oh, do you ride a bike also? No. Okay.

Speaker C - 00:35:49

I can't, unfortunately more.

Speaker A - 00:35:51

So does he ride by himself in the park or does he come with us? Sophia mostly.

Speaker C - 00:35:58

Sometimes with Sophia sometimes, you know, I'll come with him and he'll ride around and, you know, enjoy the sunshine and the fresh air and he'll ride.

Speaker A - 00:36:09

Okay.

Speaker C - 00:36:10

So has.

Speaker A - 00:36:11

He'll go on his own and then come back to you? Okay. You do that a lot?

Speaker C - 00:36:16

Not as often as we used to.

Speaker A - 00:36:18

But you used to do it a lot. Okay. Does he have a specific route he usually takes? There's a specific. Like where would you usually park to.

Speaker C - 00:36:26

When he was on that ride? I'd park over by Heather Farms parking lot over there. Oay. And he just would ride kind of toodle around.

Speaker A - 00:36:36

Okay. So he would go from there and then he would just. He would come back to you.

Speaker C - 00:36:40

And.

Speaker A - 00:36:47

Does he know how to ride home on the bike from school? Okay.

Speaker C - 00:36:52

I believe he does, yes.

Speaker A - 00:36:53

Has he ever ridden from the park to home or to your house? Either, or to the park? He has. Okay. So he's comfortable on that route, on the road?

Speaker C - 00:37:04

I think so. Okay.

Speaker A - 00:37:17

Do you like to ride? He likes to ride a lot sometimes, I think.

Speaker C - 00:37:21

I think between riding and walking. Maybe it he likes to walk and he likes to ride. But like I said, with the daydreaming, he does more walking than riding. And also because he can daydream, you know, wherever he is and doesn't need the bike with him. The bike he has to plan.

Speaker A - 00:37:43

Yeah. Okay. Would he ever walk with the bike? Like kind of just walking along while he's walking? So he could daydream a little, I bet.

Speaker C - 00:37:54

I don't know.

Speaker A - 00:37:54

Okay.

Speaker C - 00:37:55

I don't know.

Speaker D - 00:37:55

Yeah.

Speaker A - 00:37:56

All okay.

Speaker C - 00:37:58

I don't know whether he would leave the bike and then daydream and then come back to that. I don't know. Okay.

Speaker A - 00:38:13

So the day before or. Let's see, you spoke to him on Thursday. That was. Was that in the morning or the evening or afternoon?

Speaker C - 00:38:30

It was in the afternoon when he came home from school. Were trying to get him to be more independent. He got his snack and I wished him well on the camp out.

Speaker A - 00:38:45

Okay.

Speaker C - 00:38:46

Told him I loved him.

Speaker A - 00:38:47

Yeah. And again, he was in pretty good spirits and everything. Excuse me.

Speaker C - 00:38:51

I'm sorry to interrupt. I was just trying to get a hold of Steve. Is that your son?

Speaker A - 00:38:55

Yes.

Speaker C - 00:38:55

No, my son in law. Your son in law. Okay. And they went to voicemail. He's out searching somewhere. Do you have another way to get in touch with him or. No, I don't. Just his phone number. Phone number.

Speaker A - 00:39:04

Okay.

Speaker C - 00:39:04

All right, I'll keep trying. Oh, please. And if you do get a hold of him, please let me know. I will.

Speaker D - 00:39:08

And I'm going to try to.

Speaker C - 00:39:09

I'm going to have him come here.

Speaker A - 00:39:10

So he can talk to you guys here. Okay. All right.

Speaker C - 00:39:12

Thank you.

Speaker A - 00:39:13

Thank you.

Speaker C - 00:39:14

That would be Steve. He called me, as I told you, about Meiam being missing. And that would be Steve. I'm gonna go look for him.

Speaker A - 00:39:24

Okay. Does he ever text with you? Do you ever text?

Speaker C - 00:39:29

I'm not much of a texter. I'd have a flip phone if I had my wife.

Speaker A - 00:39:34

Oh, yeah? Do you have your phone with you? Has he called since the last time and. No, he does not. Do you mind? Would you feel comfortable giving him a call? Because maybe if he sees your number come up, he recognizes it. Would that be all right?

Speaker C - 00:39:59

Of course.

Speaker A - 00:40:09

They got the info on the bike and everything?

Speaker D - 00:40:11

Yep. Huh. And he was calling. Rob was calling the talking to the camp director g that information.

Speaker A - 00:40:17

The bike is still there.

Speaker D - 00:40:18

Yeah. Yeah, exactly.

Speaker A - 00:40:19

He does know how to ride home from home, so he's comfortable in the streets. That's important too, that the bike is not there. And Did. Did you confirm whether or not they had searched the house?

Speaker D - 00:40:31

I did not, but I told him about that. He knows how to walk home and.

Speaker A - 00:40:37

Okay. What?

Speaker C - 00:40:38

He's not answering.

Speaker A - 00:40:39

He's not answering. Okay. Okay. All right. Do have. Are you connected on some kind of family plan or anything? Is that an iPhone? No, it's not.

Speaker C - 00:40:55

And it's a.

Speaker A - 00:40:56

What you call it and an Android phone gutter Apple has. There we go.

Speaker C - 00:41:07

Steve, I'm trying to get a hold of you and I haven't. Haven't been able to get a hold of you and asked me to call you. Steve.

Speaker A - 00:41:19

I supposed not an.

Speaker C - 00:41:20

Yeah, that's correct. That's correct. Yes, you are. Okay. I hope you have success at it.

Speaker A - 00:41:34

Deborah, can we speak to Steve? Are.

Speaker C - 00:41:37

I'm at what they call thep. The command post. Okay. And is that it' It's. How would I tell him exactly where this is? Could I buy the dog park?

Speaker A - 00:41:49

Yes, provide the dog park at the end of north it the Carlos north.

Speaker C - 00:41:55

Car, I think at the end.

Speaker A - 00:41:58

The end of the street of North.

Speaker C - 00:42:00

Carlos, the end of the street of North Carl Park.

Speaker A - 00:42:03

And there's a lot of sheriff's vehicles.

Speaker C - 00:42:05

And there's a lot of sheriff's vehicles.

Speaker A - 00:42:06

You can't miss it. Okay. If you could just tell them, okay.

Speaker C - 00:42:11

You'Renna look someere and then you'reнна come by here.

Speaker A - 00:42:13

Could I speak to him for a second?

Speaker C - 00:42:14

Wait a minute. I'm sorry. Laaa would like to talk to you.

Speaker A - 00:42:20

Hi, Steve? Is this Steve? Hi, Steve. Hi. I was wondering, we have Deborah here, your mother in law, and she's been really helpful with some great answers to our questions. She's has given us some really fantastic information. Very helpful. But there's such some questions I have for you that I think only you can specifically answer. Are you able to come to our command post? We have many teams out there looking for your son. Rid right now. I can talk on the phone on my b. But there soon again. Right. Okay. Boy, that John Caalen, He'got an addict. O.

Speaker D - 00:43:15

He didn't want to come. He wanted to search.

Speaker A - 00:43:19

Could you please go tell Ops or tell Michelle, search manager that we were able to contact Steve? He's out on his bicycle. He says he will come here, but he was saying it will be not immediately, but he knows the location and he is on his bike searching but we did make contact.

Speaker D - 00:43:40

Ok.

Speaker A - 00:43:40

Through Deborah. Okay, thank you. I know, like, I wanted to say he's b ro but I'm like, he's being belligerent, but I can't say that in front of. But since this isn't.

Speaker D - 00:43:53

This is a.

Speaker C - 00:43:54

We're taking a p. We're taking a little break.

Speaker A - 00:43:56

I'll just say that to be like he's being beligerent.

Speaker C - 00:44:00

I'm sure that it's because he's nervous.

Speaker A - 00:44:02

He'scared looking for his son. No, I would never say that in real life.

Speaker C - 00:44:07

I know.

Speaker A - 00:44:11

Thank you for calling him. Yes, I'm sure that when he saw your phone number that a little bit morebe a little more responsive. More comfortable being responsive. So. So did he likes to ride with Liam, Right? Okay. Would they go on bike rides a lot?

Speaker C - 00:44:32

I won't say a lot, but some oay. Yeah. Again, everybody's busy all the time and. But every now and then, maybe once a month or whatever, they.

Speaker A - 00:44:44

If the web is nice'll o corct in a casual. A casual neighborhood ride.

Speaker C - 00:44:49

Oh, yeah.

Speaker A - 00:44:49

All right. Okays. Are there any restaurants he likes around here? Liam? Liam likes.

Speaker C - 00:45:00

I don't know about restaurants, but he. One of our special treats is to go to Noah's Bagel.

Speaker A - 00:45:11

Noah's Bagel.

Speaker C - 00:45:12

And he loves the chocolate chip bagels there.

Speaker A - 00:45:15

Oh, I hear they are good.

Speaker C - 00:45:18

Oh, that is like one of his favorite things.

Speaker A - 00:45:21

Which noses Bagel is like.

Speaker C - 00:45:22

I think there's one right here at Country Wood.

Speaker A - 00:45:25

That Countrywood. Do you have a Google? How far away is that? Is it just across the street?

Speaker C - 00:45:37

Pretty muchh.

Speaker A - 00:45:38

Okay, let's go.

Speaker C - 00:45:40

It's the shopping center right across.

Speaker A - 00:45:42

Oh, where the Trader Joe's it or. No, that is that Trader Joe's's a sports bas man. Oh, sports based_ent I'm on the wrong. Oh, no.

Speaker D - 00:45:49

Do you mean down off Bancroft? Yeah. That's not the one right here.

Speaker A - 00:45:54

That's down a little banroft right where.

Speaker D - 00:45:56

Black Bear Diner is. That's the closest one.

Speaker A - 00:45:59

Does he like. Does he like the Black Bear Diner? I know my nephew loves a Black Bear Diner. I don't Maybe. Okay. Would he have money with him so he could go buy a chocolate chip bagel?

Speaker C - 00:46:18

I didn't give him any money. I don't know if. I don't know if he had money on him and I don't know he.

Speaker A - 00:46:25

Do you know if he sometimes has money with him?

Speaker C - 00:46:28

Usually not.

Speaker A - 00:46:29

No.

Speaker C - 00:46:29

No. I mean, he and I go to Noah'The two of us?

Speaker D - 00:46:34

Yeah.

Speaker C - 00:46:34

Okay.

Speaker D - 00:46:34

And you know there's a bakery right here. Are you familiar with a Sweet Affair bakery?

Speaker C - 00:46:41

I've heard of it.

Speaker D - 00:46:42

Oh, okay. But it's not a place that you guys frequent for a sweet treat.

Speaker A - 00:46:45

So he'd be okay. Obviously he walks home. He can walk home. So he'd be okay crossing Ignatio and stuff. Let's let them know that he likes the chocolate chip bagels that Noah because he could have gotten money from a friend or something.

Speaker C - 00:47:13

The bagel sounds really good right now.

Speaker A - 00:47:18

Have you had the boy check bagels?

Speaker C - 00:47:20

No. How are they?

Speaker A - 00:47:21

They're very good. Closest to a New York. New York bagel you're gonna get out here. Ok. And they're gonna open one and conord and then they can. But I get them frozen. So they bake em out in Berkeley, freeze em and you can get em out here in Walnut Creek. So they're pretty fresh. Cause they freeze em.

Speaker C - 00:47:39

Good to know.

Speaker A - 00:47:40

Yeah. I'll bring some to Steve next timeas at the next event. Sar. Our event. Oscar. This is Oscar. This is o Script Chris. Okay. Oay you think if he was hungry enough he'd go over there?

Speaker C - 00:47:59

It's a possibility.

Speaker A - 00:48:00

Possibility. Okay. All right.

Speaker C - 00:48:04

Like I said, I'm so concerned about him. His sugar getting too low or too hot.

Speaker A - 00:48:10

Yeah.

Speaker C - 00:48:10

Yeah.

Speaker A - 00:48:11

Okay. If he was walking around and daydreaming and he missed his insulin, he's kind of. Kind of gradually taper off and then just find some place to kind of sit and rest.

Speaker C - 00:48:25

That could be okay.

Speaker A - 00:48:28

Would he be getting. Would he any anxiety over that.

Speaker C - 00:48:35

Again? I'm not sure he. He could.

Speaker D - 00:48:42

He.

Speaker C - 00:48:47

Emotionally again, it depends. If he's getting weaker and weaker, he would probably just find some place to sit. I'm hoping he hasn't hurt himself.

Speaker A - 00:49:14

You think he would try to hurt himself?

Speaker C - 00:49:15

No, he wouldn't try to hurt himself. No, no, no, he's not. That's. No, that's not something. Like I said, he curls up. But if something. If he hurt himself in some way, he wouldn't feel it.

Speaker A - 00:49:29

He wouldn't feel an injury.

Speaker C - 00:49:31

Not very much part of the being on the spectrum.

Speaker A - 00:49:36

Okay. Kind of desensitized to physical touch of any kind.

Speaker C - 00:49:43

Well, he also doesn't like being touched by certainly by strangers. I mean, yes, I'll get a hug, but I have to ask. But otherwise he.

Speaker A - 00:49:56

Oay. So if he was going to sit somewhere, would he find a quiet place that's by himself or would he prefer to be around the dogs and the geese or would he find a Bench.

Speaker C - 00:50:14

I think he'd find a private place.

Speaker A - 00:50:17

Private place?

Speaker C - 00:50:18

Yeah. Or a bench somewhere.

Speaker A - 00:50:20

Bench. Okay. So he's gonna want to be comfortable. And would he try to avoid people as much as possible? So the least crowded place. So the park you it's kind of waking up a little bit and there's more people coming in. Would he remove himself or stay put? If more people were starting to come.

Speaker C - 00:50:47

Around, if they're off kind of at a distance, I think he's probably be okay if he felt they were walking by him really close. Everything else.

Speaker A - 00:51:01

So if you kind of look around, Deborah, and you see the activity right now, is this a comfortable amount of distance and active level of activity where.

Speaker C - 00:51:11

We're sitting right now?

Speaker A - 00:51:13

Yeah. Without all our stuff, our presence. But the cyclists and the dog walkers.

Speaker C - 00:51:20

Because they're off at a distance, it's okay. If they were walking right by this path, he would not be comfortable.

Speaker A - 00:51:27

Okay.

Speaker D - 00:51:27

He would leave.

Speaker A - 00:51:28

So he would probably be a bit removed from the walking path at this point.

Speaker C - 00:51:31

Probably a bit. Again, yeah. It depends how he's strength or how he's managing.

Speaker A - 00:51:41

How does he do in the dog park with people? So the dogs are there, which he's comfortable with.

Speaker C - 00:51:47

The dog he really enjoys the dogs.

Speaker A - 00:51:49

Is he okay if he's around the dogs, but their human owners are there too?

Speaker C - 00:51:58

He would be. Sometimes the humans stay outside and he would be. He would be comfortable with the dogs, but if there were too many people, he would probably leave. If there were too many people around.

Speaker A - 00:52:15

Ok.

Speaker C - 00:52:16

If there were just a few and there were the dogs and everything, you could be comfortable with that.

Speaker A - 00:52:22

Okay. So the amount of people over in the dog park right there, that's okay?

Speaker C - 00:52:28

Oh, yeah.

Speaker A - 00:52:29

Okay.

Speaker C - 00:52:29

That's fine okay.

Speaker A - 00:52:31

All right is or anything else that you could think of that this know his state of mind at this point. What would be his top priority right now?

Speaker C - 00:53:03

His top priority? I't. I don't know. I don't know what caused him to leave. His topior would probably be to be comfortable comk and like I said, he doesn't feel pain the way the rest of us do.

Speaker A - 00:53:38

Mean the physical pain or also emotional pain?

Speaker C - 00:53:41

Physical pain. Emotional 10 perhaps to process it a bit differently.

Speaker A - 00:53:49

In what way?

Speaker C - 00:53:53

Where other people might go for help or whatever. Emotionally, he will withdraw. We're not see him.

Speaker A - 00:54:08

So withdraw socially and then also physically take that shelter. Shelter. Shelter under the blanket. Does this blanket have a special name.

Speaker C - 00:54:19

Or anything that bl wany?

Speaker A - 00:54:21

I like that. It's very concise. One of his first wars, like thank you. Was it? That's one moment, I'll let you catch your breath for a second.

Speaker C - 00:54:44

Even two breaths, huh?

Speaker A - 00:54:45

Two breaths are good too. And do you think if he saw us and our orange jackets coming into the area, would he be afraid or adverse to having us be anywhere near him as opposed to someone in street clothes?

Speaker C - 00:55:14

He would possibly be more comfortable. Maybe the uniforms identify you. If there were several, he would withdraw. Several people in uniform came toward him, he would probably withdraw.

Speaker A - 00:55:31

But would one person.

Speaker C - 00:55:36

And again, at. Not a total as close as I am to you, but at a distance, very slow, obviously non threatening. If the person approaching them had a squishy or something or fishesman or something like that, that would certainly help. A fidgety.

Speaker A - 00:56:09

Would he find a smaller person less intimidating? And does he respond better to female or male?

Speaker C - 00:56:17

It's that's? A good question. I mean, he's close to his dad, he's close to his mom. He's close to me again in a very soft. A very soft voice, a very slow approach. He does like music. He likes the Disney stuff. He doesn't like loud noises. As I said, he does not like crowds. Obviously he knows his own name and all that. He would respond to my voice if he heard it, his dad's voice. And again, also, if he, you know, hasn't taken his meds and isn't doing well that way, that would also.

Speaker A - 00:57:31

He. He's getting more agitated or anything like.

Speaker C - 00:57:34

That, Perhaps more withdrawn, more with strong. And again, I'm hoping that he hasn't hurt himself in any way because he would not be aware. Oay, he wouldn't be aware if he hurt himself. He got it. Yeah.

Speaker A - 00:57:53

So I'm thinking that maybe if we do like when we find him, that the orange jacket might be. Would that be bothersome? Cause it's bright.

Speaker C - 00:58:05

If it's explained to him, okay, but.

Speaker A - 00:58:08

The color wouldn't aggravate him or.

Speaker C - 00:58:11

I don't think so.

Speaker A - 00:58:12

Okay.

Speaker C - 00:58:13

Again, if it was explained to him and that this is so that he could see, he could find you okay.

Speaker A - 00:58:24

And then the radio, would that be jarring to him if he heard the talking on the radio, if it was.

Speaker C - 00:58:32

Explained to him what it was okay. I think he would be okay. Oay, if it wasn't explained and he heard the crackling and everything?

Speaker A - 00:58:40

Yeah, he might be o so and then I was thinking maybe if when our teams find him, an individual female gently approaching would probably, you know not intimidating would be probably the best. The best first contact. And so For a normal person, about a three, three and a half foot distance. This is a kind of our space. Right. So this is what we're normally comfortable with. Would you say he's a little more comfortable with twice that amount of space? Ok.

Speaker C - 00:59:21

But at the beginning.

Speaker A - 00:59:22

Yeahah. The initial, that's where our team members should stop at about six feet from him. Talk to him, make him feel comfortable. Okay.

Speaker C - 00:59:34

He's basically a very, very sweet kid.

Speaker A - 00:59:37

Oh yeah, he sounds like it. He sounds like a lovely, lovely, wonderful he.

Speaker C - 00:59:42

Yes, he's on the spectrum but he's not kind of teases that he's got a foot on the spectrum.

Speaker A - 00:59:52

Not all of him on the spectrum.

Speaker C - 00:59:53

One foot on the spectrum.

Speaker A - 00:59:55

Okay. So he is functioning at a 12 year old level.

Speaker C - 01:00:02

Are you talking? His grades are way up there. Emotionally he's a bit below.

Speaker A - 01:00:12

Below.

Speaker C - 01:00:13

Okay. A bit below emotionally a little bit.

Speaker A - 01:00:15

Oay.

Speaker C - 01:00:19

He's gotten a pretty good sense of self.

Speaker A - 01:00:24

Okay, good. If we called his name, would he respond?

Speaker C - 01:00:56

It would depend if it was done. Depending on how withdrawn he is. If it was done quietly, very gently, he probably would.

Speaker A - 01:01:18

So he responds to your voice and both Steve and his mom's voice too? Absolutely. Okay. Do you think he would respond better to so female boy calling out to him.

Speaker C - 01:01:31

If it was a very gentle.

Speaker A - 01:01:33

Gentle could be.

Speaker C - 01:01:34

I mean he gets along okay with his you male teachers and everything and of course with his dad but in terms of strangers. He doesn't like strangers. He doesn't do well with strangers. So that's why if it. Yeah. I think your suggestion is probably very good one.

Speaker A - 01:01:49

Okay. So all right Deborah, I'm just going to pause right here for a moment. I'm going to suggest for the that they probably put on slack. That team should approach slowly and give a six foot distance if they make contact and that one team member should approach preferably female. Any calling out call outs should be done softly as a non aggressive approach, gentle approach and he doesn't like loud noises. He doesn't like being touch and he doesn't like physical touch. And if he is injured he might not know that he's injured so that if they do when they find him that's important. Okay. Does he have a guidance counselor or.

Speaker D - 01:02:52

Anything you want me to go?

Speaker C - 01:02:54

We like that.

Speaker A - 01:02:54

Oh yeah, yeah.

Speaker C - 01:02:57

A therapist.

Speaker A - 01:02:58

He has a therapist who does he go frequently?

Speaker C - 01:03:05

Once a week now.

Speaker A - 01:03:09

Was he going more regularly before or at the very beginning?

Speaker C - 01:03:13

It was several times.

Speaker A - 01:03:15

Okay.

Speaker C - 01:03:17

He was diagnosed at three and a half which is very fortunate because the earlier they start working with them.

Speaker A - 01:03:25

Yeah.

Speaker C - 01:03:26

The much better the success is.

Speaker A - 01:03:28

Do you have the therapist name? Do you know who the therapist is?

Speaker C - 01:03:30

I don't remember what the name because.

Speaker A - 01:03:32

I'm sorry. Oh, that's. That's great.

Speaker C - 01:03:33

I believe it was through. I believe it was through Kaiser.

Speaker A - 01:03:37

Through Kaiser.

Speaker D - 01:03:37

Okay.

Speaker C - 01:03:42

Steve would know.

Speaker A - 01:03:43

Steward know. Does the. Does Liam get upset easily?

Speaker C - 01:04:10

Less so than when he was younger. But again, it depends what else where he is and what else is going on. He can, you know, it can be like a trigger. Like I said, when he left the house, you know, there were a lot of people and it got very noisy and he just depends on the situation.

Speaker A - 01:04:36

Okay. Do you think that if our team kind of uses more of a sing songy voice. I'm trying to think of what would be the best way to say that. Would that be betterari?

Speaker C - 01:05:03

Not necessarily sing song but very gentle, that kind of a voice. Yeah.

Speaker A - 01:05:09

You look at him and he's okay with eye contact.

Speaker C - 01:05:15

Yeah. That's one of the things that they work on in therapy.

Speaker A - 01:05:17

Oay. Oh, okay.

Speaker C - 01:05:18

Because a lot of them.

Speaker A - 01:05:21

Correct. Yes.

Speaker C - 01:05:22

And they also can't read faces. But that is something that was part of the training.

Speaker A - 01:05:26

Okay.

Speaker C - 01:05:27

So he's able to read faces.

Speaker A - 01:05:28

He knows the facial express emotions like smiling and he can. He can.

Speaker C - 01:05:34

Like I said, they've been working on that.

Speaker A - 01:05:35

Okay, that's great. Sounds like he's done made some really great progress. So that's amazing. There any kind of car city likes or buses, trains, boats, things like that?

Speaker C - 01:05:58

Steve has taken him to a couple of the train shows and a couple of the car shows. I don't know if he's into it or not. Not particularly.

Speaker A - 01:06:07

O How prevalent is the Disney like, you know, his liking of Disney?

Speaker C - 01:06:16

He likes Disney.

Speaker A - 01:06:17

Is it a really strong kind of thing?

Speaker C - 01:06:23

Sort of. You know he again, Disneyland was very difficult because of the crowds. But he likes the Disney characters and the fun and the Pixar stuff. And you know, a lot of Disney has to do with littles. With little kids, which he loves.

Speaker A - 01:06:41

Okay. Do know if there's any.

Speaker C - 01:06:42

And some of the Disney music. It's played softly that I know he would.

Speaker A - 01:06:49

Does he have a favorite. Does he like the newer stuff or the older.

Speaker C - 01:06:52

Good question. He liked Moana.

Speaker A - 01:06:56

Moana and.

Speaker C - 01:07:05

I think Mowana was one of his favorites.

Speaker A - 01:07:10

He likes the music from it. That was a pretty good movie.

Speaker C - 01:07:17

He's been to Hawaii, so there was that.

Speaker A - 01:07:21

He likes Hawaii. The water. Yes.

Speaker D - 01:07:40

Are they're putting out our information.

Speaker A - 01:07:43

Can you guys hear that? Oh, you can. Where are you Hearing it from.

Speaker D - 01:07:48

Not from you.

Speaker A - 01:07:50

That's something off script. That's probably something in our ###ris we should mention that the interview area should. Because you can hear all that stuff, right?

Speaker C - 01:08:01

Yeah, I can hear just about everythingse.

Speaker A - 01:08:02

Yeah. So that's probably not what did a.

Speaker D - 01:08:05

Pretty good job of car location.

Speaker A - 01:08:08

Yeah, the grandmother probably worried. Grandmother doesn't need to know that he miss his insulin and all that stuff.

Speaker D - 01:08:15

So do we need to check him with a dad again or we just leaving him to get here when he gets here?

Speaker A - 01:08:20

Yeah, he. So we made contact and he was saying he doesn't, you know, he's still gonna be out looking, but he'come when.

Speaker D - 01:08:29

He gets around to it kind of thing.

Speaker A - 01:08:31

So if you could go let them know that he likes Moana and that if somebody's able to play some of that music, he might be drawn to them.

Speaker C - 01:08:40

Softly.

Speaker A - 01:08:40

Softly. Yeah, they can play that on their phone softly. If he hears it he. A particular song for Moana he likes.

Speaker C - 01:08:50

I don't know, one of the lovely kind of.

Speaker A - 01:08:54

Okay, does he like Moana's voice or does he like the rock voice?

Speaker C - 01:08:58

Moana.

Speaker A - 01:08:59

Moana. Okay, so any of the ones that the female lead is singing, also, if.

Speaker C - 01:09:05

He's found and if he's really just not responding, whatever. If you could hear my voice or Steve's voice, you know, call in and I could say, hi, sweetheart, you know, how are you doing? And he could hear that. That might be helpful.

Speaker A - 01:09:22

Deborah, what's your number?

Speaker C - 01:09:25

9258-999-9200.

Speaker A - 01:09:34

Okay, so they'll need that number. The. Well, let. Let's do Deborra, because she's here.

Speaker D - 01:09:40

Okay.

Speaker A - 01:09:40

And then. Then she'll call. The team member can call in for that number. Have her.

Speaker C - 01:09:48

And I would not say violò e Liam, what have you done? No, it would be. Oh, I'm glad. Who are you talking to? And it's okay, sweetheart. And I look forward to seeing you real soon. And maybe can get a chocolate chip bagel know just to.

Speaker A - 01:10:08

And it. We're all gonna come with you for that one. Yeah. So if the. The team member when they find them, that CP should give them that information.

Speaker C - 01:10:18

To talk if that helps. If he's responding, that's okay too. Okay.

Speaker A - 01:10:24

As a potential means. And then the Moana music. Um.

Speaker C - 01:10:34

An. An. An A. Gramma Colle Grandma.

Speaker D - 01:10:38

Okay.

Speaker C - 01:10:39

I wore M.

Speaker A - 01:10:42

What's that say? M. I can. My favorite people. Call me. Call me Nana. Nana. Nona. N. Nana was kind of old.

Speaker C - 01:10:52

He likes that. He likes the t. Shirt, the sweatshirt.

Speaker A - 01:10:56

Okay, let's see. What other kind of routines does he have that he does very regularly on everyday Gets up.

Speaker C - 01:11:14

They're trying to build his independence since he's 12. And so he gets his own breakfast. He's supposed to get his school stuff out the night before so that it's all ready to go. And he gets himself to school most.

Speaker A - 01:11:33

Of the time.

Speaker C - 01:11:36

And then comes home, has a snack. So he's got a pretty good routine going so he knows what to expect. Gets his neck. Sometimes he will stay after school for a school activity like Dungeons and Dragons or something like that, and then come home and then homework and then dinner and then maybe gaming and then bedtime.

Speaker A - 01:12:04

It's a pretty regular.

Speaker C - 01:12:06

Pretty regular schedule.

Speaker A - 01:12:07

So he likes Dungeons and Dragons?

Speaker C - 01:12:09

Loves it. He loves it.

Speaker A - 01:12:11

He like it IND does he like it more than Disney U?

Speaker C - 01:12:15

Yeah. How about he's getting older? Yep.

Speaker A - 01:12:18

Yep.

Speaker C - 01:12:18

Okay, now that he's getting older. Yep.

Speaker A - 01:12:20

Does he have any Dungeons and Dragons? I honestly don't know a lot about Dungeons and Dragons. So does he have anything nearby Dungeons and Dragon related he'd be drawn to?

Speaker C - 01:12:36

No, because that's an online thing.

Speaker A - 01:12:38

Oh, he does it online.

Speaker C - 01:12:39

It's Oay's an online game and sometimes he and maybe a couple of friends will get together and they're playing it at the same time in the same place.

Speaker A - 01:12:48

Ok.

Speaker C - 01:12:48

But otherwise it is. It's an. I mean it is an online game. Okay.

Speaker A - 01:12:52

Okay. I remember when it was in person, didn't they dress up?

Speaker D - 01:12:57

What are you guys talking about?

Speaker A - 01:12:58

Oh, Dungeons and Dragons. I think originally it was like a board gameh yeah. And they dressed up in character.

Speaker D - 01:13:04

Yeah. It's big following.

Speaker A - 01:13:06

I'm gonna pause when take off script. So what was the communication there?

Speaker D - 01:13:11

What do you mean?

Speaker A - 01:13:11

Just for my learning experience.

Speaker D - 01:13:13

Me and Michelle.

Speaker A - 01:13:13

Yeah. What was her response?

Speaker D - 01:13:15

She thought it was really helpful. O so she wrote it all down and.

Speaker A - 01:13:19

Yeah, this is. You know, we're all learning. We're all learning. So I need to know if I'm.

Speaker D - 01:13:23

Sending you backah with irrelevant I'm also taking note of. But so far everything has been well received.

Speaker A - 01:13:29

No good. Back on script. Thank you, Deborah. You're doing a great job.

Speaker C - 01:13:34

###K you very much.

Speaker A - 01:13:35

Thank you.

Speaker C - 01:13:38

After we're done, I'll tell you a story. But anyway, go.

Speaker A - 01:13:40

Okay. Oh, good. So you said you're pretty sure he doesn't have his phone or at least he's not supposed to has.

Speaker C - 01:13:51

He's a pretty good rule follower.

Speaker D - 01:13:53

Okay.

Speaker A - 01:13:56

Any chance, you know if he has an iPhone.

Speaker C - 01:14:00

He.

Speaker A - 01:14:01

His phone. Okay. His phone wouldn't be an Apple. It would be an Android phone. I don't know. Do you ever text him at all?

Speaker C - 01:14:10

Text?

Speaker A - 01:14:10

Yeah. No.

Speaker C - 01:14:11

Like I said, I would still be using a flip phone if my husband didn't insist.

Speaker A - 01:14:15

Oh, okay. Grow. Well, I know your husband and I know he likes his gadgets, so.

Speaker D - 01:14:21

Wait, so he has a phone, but.

Speaker A - 01:14:24

It's not an iPhone. Do you know his cell phone number? Liam. Liam. No. Okay. Does he have any other kind of tracking devices, like an Apple tag or something like that. I know. Okay. Because sometimes parents will sew them into the clothing or something like that on a. Yeah. Yeah. Okay. Let's see. Okay. You don't think he'll hide from us?

Speaker D - 01:14:58

Right?

Speaker A - 01:14:58

Right. Just want to make sure.

Speaker C - 01:14:59

I don't think so. If like I said, as long as it's a very gentle approach.

Speaker A - 01:15:05

Okay. Yeah.

Speaker C - 01:15:06

Did you do it in a soft voice.

Speaker D - 01:15:09

And.

Speaker C - 01:15:11

I think he's okay.

Speaker D - 01:15:15

Maybe I missed this, but I'm just curious if there are places that you might be aware that he would ride his bike to outside the park or even inside the park versus like where he would walk to. And he goes. He repeatedly goes with Sophia when he's on his bike as opposed to on.

Speaker A - 01:15:35

Kind of the trails. Just sort of randomly it sounded like, oh, okay.

Speaker D - 01:15:40

I wasn't sure if you guys talked about that.

Speaker C - 01:15:42

Not on the bike. On the bike.

Speaker D - 01:15:43

He stay in the oay and in the park pretty much.

Speaker C - 01:15:47

Y.

Speaker A - 01:15:48

How does he feel about his bike? Is it one of his favorite things?

Speaker C - 01:15:52

He kind of takes it for granted. You know, it's there and it's his and it's a special bike and.

Speaker A - 01:15:57

Yeah.

Speaker C - 01:15:58

Yeah.

Speaker A - 01:15:58

But he would. Is it really important to him that it would be with him at all times? Okay. All right. So he's not going to just leave it somewhere unless he really had to.

Speaker C - 01:16:10

Exactly.

Speaker A - 01:16:10

Okay. All as a rule follower. He's going to follow all rules. We say pretty much rules of the road.

Speaker C - 01:16:35

Rules of the pret much as long as he's thinking about it. If he's thinking about something else. If there's something else going on, then he might not. But usually.

Speaker A - 01:16:47

But that would be. Would that be more under circumstances of it being unintentional, that he's just sort of distracted and he's not intentionally breaking a rule or something? What kind of behaviors would he have that might stand out to us as people looking for him? That would be like, oh, that's Liam kind of thing.

Speaker C - 01:17:16

If he's Folded up into himself.

Speaker A - 01:17:18

Ok.

Speaker C - 01:17:19

If he doesn't want to make eye contact, if he moves his body away, as I said, he does not like to be touched. So any. Any movement that might. He might construe somebody trying to touch him, he would completely withdraw and he might. He might just take off. If he was standing, he might just take off. Like I said, I've been so close to him for all these years. I'm trying to look at it kind of from the outside looking in.

Speaker A - 01:18:14

But you know, Deborah, it's because you've been so close to him all these years, all that information, you have much better insight. So whatever you're thinking of isn't be really good to let us know. So. Yeah. So if there's anything, anything that just pops into your mind, even if you don't think it's going to be helpful, just definitely voice it and let us know. Okay?

Speaker C - 01:18:45

Thank you very much for what you are saying because I can't physically go out and look for him, but you're making me feel that I'm helping and that makes me feel good. So gl.

Speaker A - 01:18:57

Thank you. Oh, of course. Yes. You are definitely a huge help. You've given us some really unique and important information that we wouldn't have been able to find else otherwise. So very, very helpful. When he learned to speak, do you know, was he. Did he develop all of his cognitive abilities as a child at a normal.

Speaker C - 01:19:25

Rate and everything his speech was delayed. Look at is he did for a while have like a stammer up.

Speaker A - 01:19:36

A stammer or a sutter.

Speaker C - 01:19:40

I think, well, a little bit of age.

Speaker A - 01:19:42

Oay.

Speaker C - 01:19:44

Another behavior that he does only when he usually. Only when he's alone is flapping.

Speaker A - 01:19:55

He likes to flap his arms.

Speaker C - 01:19:57

Yes. Does he do that a lot when he's al blown when he's doing his daydreaming? He usually. Unless he's, let's say, in the backyard or in the house or something, that. And then he might flap. But again, ifbody if he's wandering around here and notices a bit of a flap, that could be him.

Speaker A - 01:20:19

And would he be in a daydream state when he'ddoing that?

Speaker C - 01:20:24

When he'in a daydream state, especially like if he's in the house or whatever and I need to ask him something, I always apologize for interrupting his daydreaming.

Speaker A - 01:20:37

Okay.

Speaker C - 01:20:39

And then he will respond if I just say something. Often he will ignore it.

Speaker A - 01:20:45

Okay, so apologize first.

Speaker C - 01:20:51

He stay. I'll bring you another chair.

Speaker B - 01:20:54

Deb, how are you doing?

Speaker A - 01:20:56

Are you Steve how are you doing, Steve? Hi, Steve. I'm Mara. Mara, pleasure meet asking some questions.

Speaker D - 01:21:14

I'm just o min for now.

Speaker B - 01:21:16

Getting nervous.

Speaker A - 01:21:17

Okay. Deborah has been wonderful. She's been giving us some really great insightful information about your son. And I just thought building a picture of what a wonderful young man he is. But we were talking about his bike and I guess you guys do a lot of bike riding and everything.

Speaker D - 01:21:42

Are you sure?

Speaker C - 01:21:43

Got an importancies.

Speaker D - 01:21:45

Thank you.

Speaker A - 01:21:45

Appreciate for o.

Speaker C - 01:21:47

Okay.

Speaker A - 01:21:49

I only ask because we need to keep eyes on our inter.

Speaker D - 01:21:53

This is for real subject see if you will excuse.

Speaker A - 01:21:56

Okay.

Speaker C - 01:21:56

And I do it myl phone you'ren.

Speaker A - 01:21:57

To come back S. Okay.

Speaker D - 01:22:00

Oh, you do have your cell phone.

Speaker C - 01:22:01

I'm good.

Speaker A - 01:22:03

Keep her magazine though. She's got to come back.

Speaker D - 01:22:05

Yeah. Okay.

Speaker C - 01:22:05

There you go.

Speaker D - 01:22:06

Collateral.

Speaker A - 01:22:07

All right, that's good. So, Steve, thank you for coming to our command post to ask those questions.

Speaker B - 01:22:13

Thank you.

Speaker A - 01:22:14

Ye I just take some breaths, try and get yourself into a better place for just a moment. Then ask you some questions. First of all, does Liam have a cell phone? No, he doesn't have any phone at all.

Speaker B - 01:22:32

I was supposed to meet him after his camp. O you know, he'supposed to ride. He was just going to bike ride with a friend.

Speaker A - 01:22:38

Okay. Sophia, right?

Speaker B - 01:22:40

Yeah.

Speaker C - 01:22:40

Okay.

Speaker B - 01:22:41

And supposed to meet him know, kind of down by the pond. And then they called me and the school called me and said that the last notice they had, I think it was like four in the morning at kind some bed check or something. I don't know what it was.

Speaker A - 01:22:55

What time did the school call you?

Speaker B - 01:22:58

It was probably 6:30.

Speaker A - 01:23:03

And then what time are you supposed to meet them at the pond?

Speaker B - 01:23:07

Around 10, 10am.

Speaker A - 01:23:11

So you were at home with the school qualge. What part of the pond were you supposed to meet him at?

Speaker B - 01:23:21

It was between the pond and the playground.

Speaker A - 01:23:33

Have you ed you seen him right before coming to the sleepover?

Speaker B - 01:23:40

No, his grandmother dropped to mal.

Speaker A - 01:23:43

Oh, okay. Okay. Was he at. Did she pick him up from home or was she he at her house?

Speaker B - 01:23:54

I was at work, so I'm assuming she got him from. She was at our house.

Speaker A - 01:24:01

Okay, that's because she watches them while we're working. Yeah.

Speaker D - 01:24:07

You said at your house?

Speaker B - 01:24:08

Yeah, yeah, my wife's Traveling right now.

Speaker A - 01:24:10

Okay. So that's interesting because that's not what she told us. She didn't say she dropped them off. No, she didn't saw she on the day before.

Speaker D - 01:24:20

Yeah.

Speaker A - 01:24:20

The sleepover. So that would have been Thursday. So off script. I'm saying that.

Speaker D - 01:24:28

Yeah.

Speaker B - 01:24:29

Off script'tell you not to put a lot of time into that because you are.

Speaker A - 01:24:33

That's coordinated. Okay.

Speaker D - 01:24:34

Perfect.

Speaker A - 01:24:35

Got.

Speaker D - 01:24:35

Thank you.

Speaker A - 01:24:36

That's helpful down that road. I was gonna say that's a. That's like a really big discreancy right there.

Speaker D - 01:24:43

That's very.

Speaker A - 01:24:43

Okay. Thank you. Mother.

Speaker B - 01:24:45

They don't get along. Will, we can take this all kinds.

Speaker A - 01:24:50

Of Ia star that line, you know.

Speaker B - 01:24:54

Sorry. There we.

Speaker A - 01:24:55

No, no, we don't have that. No, there's been a lot of like different information coming in that I think it's just. It was like we.

Speaker B - 01:25:02

We were. At least I was given bullet points.

Speaker D - 01:25:06

You have to fill in a lot of the blanks yourself.

Speaker B - 01:25:09

Just so you know, is grandma knows more about this situation, dad.

Speaker D - 01:25:13

Okay.

Speaker A - 01:25:14

Okay.

Speaker B - 01:25:14

So whatever she told you is.

Speaker D - 01:25:15

Go with that.

Speaker A - 01:25:16

Oh, gota.

Speaker D - 01:25:16

Ok.

Speaker A - 01:25:17

Okay.

Speaker D - 01:25:17

That's helpful back. Yeah, I'm not gonna be much. You guys o.

Speaker C - 01:25:26

###K.

Speaker A - 01:25:28

Do you know if he. Do he ever talk to you about being bullied at school or anything like that? No. Recently. So if he was feeling uncomfortable or something happened at the overnight and he got on his bike and. And started riding through the park, would you think he would go to where you were supposed to pick him up? That's a great place, that area.

Speaker B - 01:25:58

You know, he's got social challenges and strangers. And if he was feeling awkward, he generally kind of retreats and he finds a quiet, calming place. Usually his home. Obviously he's comfortable there, but out here, I couldn't even tell you where that would be because it's so foreign and strange and everybody are stranger so. But he generally tries to find a quiet, calming place. He's not going to go towards, you know, traffic or where people are. He's going to try to stay where he can kind of calm down.

Speaker A - 01:26:33

Does Liam have a housekeep?

Speaker B - 01:26:35

No.

Speaker A - 01:26:36

Okay. Does he know of any location of a spare key around the outside of the house? Okay. Is there any way he could access entry into the house without a key?

Speaker B - 01:26:50

I don't think so. With his ability. I mean he's a smart kid and he's very high functioning. But skills to break into a house.

Speaker A - 01:26:59

I t. I know if maybe the back door is often left unlocked or something like that.

Speaker B - 01:27:05

No, it's Pretty tight.

Speaker A - 01:27:09

All right. Okay. Yeah. Okay. O. Pause break and I'm notnn.

Speaker B - 01:27:39

Have you guys come up with anything or there any of you? Any. Anybody come back or you have any.

Speaker A - 01:27:45

I haven't heard anything yet but we've been really focused on getting information from Debah and she's been really helpful. She gave us a lot of insight into him.

Speaker B - 01:27:56

She spends a lot of timeeah time.

Speaker A - 01:27:59

Sounds like they have a wonderful relationship and been able to develop a good portrait, I think of your son. And have you been in contact with your wife?

Speaker B - 01:28:11

I've been trying. I've been trying to get a hold her of left messages with her company. I was kind of delaying a little bit because she has major anxiety and I didn't want to especially being overseas and I able to do anything. So I wanted to tread lightly. But I did make the call to her company to, you know, try to.

Speaker A - 01:28:33

Get a hold of her.

Speaker B - 01:28:33

But no, I have t. I actually.

Speaker A - 01:28:36

Don'T have your wife's name. I think. Yeah. What's her name?

Speaker B - 01:28:42

Let's say it's Sue.

Speaker A - 01:28:44

Sue in.

Speaker B - 01:28:48

Debah.

Speaker A - 01:28:50

Your just. You just call her wife? Hey, wife.

Speaker D - 01:28:54

Hon.

Speaker B - 01:28:59

That wasn't very nice to leave.

Speaker D - 01:29:01

Right. She left.

Speaker A - 01:29:02

Dr. Have you met Sophia, Liam's friend?

Speaker B - 01:29:06

No, I have not.

Speaker A - 01:29:07

O. Okay. So today would have been the first day you would have met her.

Speaker B - 01:29:10

Yeah, yeah. I couldn't. Yeah.

Speaker A - 01:29:13

And is she in the same grade as he is? Where do they usually hang out then if they. You know, this sounds like theyre really good friends and shes a really good friend to him.

Speaker B - 01:29:28

Yeah. There's a program after school, you know, that they do together.

Speaker A - 01:29:34

What kind of school program is that?

Speaker B - 01:29:36

Sorry, it's just an after school kind of daycare and it's more science based where it's more interactive, not just kind of childcare, babysitting.

Speaker A - 01:29:46

M. Does he gravitate to more sciencey type stuff?

Speaker B - 01:29:53

Yeah, I'd say so.

Speaker A - 01:29:54

Yeah. Is there anything around here that he would be interested in?

Speaker B - 01:29:59

Not just nature, you know, science of nature and the animals and the ducks and he seems to enjoy that.

Speaker A - 01:30:18

Other than Sophia and you know, you and your wife. Wife. Wife. His grandmother does he. And I see he's got a therapist as well. Does he have any other confidants that he might confide in?

Speaker B - 01:30:36

Not that I'm aware of. It's pretty. We're pretty tight, you know, his grandma, my wife and myself. It's pretty much his adult social group support group.

Speaker A - 01:30:51

Would he be pretty open to letting you know on his terms, of course about being bullied or any difficulties he's having outside of the family.

Speaker B - 01:31:03

That's the challenge is he kind of retreats. He doesn't share that kind of stuff. We have to look at his body language and the difference in his demeanor to recognize that. But verbally he doesn't share that with us.

Speaker A - 01:31:18

Have you noticed anything like that in the last couple days?

Speaker B - 01:31:21

Not in the last couple days.

Speaker A - 01:31:23

It's been a while.

Speaker B - 01:31:38

How many people do you guys have out searching?

Speaker A - 01:31:42

Well, it sounds like we have six or seven teams, I believe out there right now, and it looks like about teams of three. So.

Speaker B - 01:31:55

And you're aware of his medical condition?

Speaker A - 01:31:57

He's a type 1 diabetes.

Speaker B - 01:32:00

I'm assuming he hasn't had any food since last night, so I'm getting kind of worried about that.

Speaker A - 01:32:07

Yes.

Speaker B - 01:32:08

Your folks have first aid or you're on speed downial?

Speaker A - 01:32:12

We yes, yes. So we, you know, John Muir is right down the road and we can get an ambulance here quick. And we do have immediate first aid items so we can can treat in.

Speaker B - 01:32:28

The'S my biggest right now.

Speaker A - 01:32:30

Blood sugar. What's. Yes. Yeah, we're able to treat for that in the immediate moment. And then like I said, the ambulance could be here within minutes. Well.

Speaker C - 01:32:45

But anything, any.

Speaker A - 01:32:48

Well, we don't know what his wife's name is.

Speaker D - 01:32:51

We're calling her Sue.

Speaker A - 01:32:53

We Coll or Sue.

Speaker C - 01:32:55

Susan is my middle name.

Speaker D - 01:32:56

So'that Okay.

Speaker A - 01:32:59

Y. Dorothy.

Speaker C - 01:33:01

What's that?

Speaker A - 01:33:01

I like Dorothy. Dorothy is a good name too.

Speaker B - 01:33:06

Details.

Speaker A - 01:33:07

Steve basically said that you would probably know her names since she's your daughter.

Speaker C - 01:33:17

Yeah, uh huh.

Speaker B - 01:33:21

Her name's Susan, but she goes by Sue.

Speaker C - 01:33:23

That's right. Exactly.

Speaker B - 01:33:24

Okay.

Speaker C - 01:33:24

You know.

Speaker A - 01:33:25

All right. Steve, do you know if Liam has any money on him?

Speaker B - 01:33:30

I'm not. He generally doesn't, no.

Speaker A - 01:33:33

Okay. Would it be possible that he could have money like a couple dollars on him?

Speaker B - 01:33:37

I him he's not even aware of money that I'm know.

Speaker A - 01:33:48

If there was an obstacle or something that he needed to kind of think through or figure out, would he be able to do that? Can he problem solve?

Speaker B - 01:33:59

He Canert? As long as he's not too scared. Oay because then he has a hard time for focusing when he's scared. But in his kind of normal state, Very, very intelligent young man. That's why I'm not real concerned about him just walking or riding off and you know, a long distance. It's about his blood sugar and what's that doing to him. Him.

Speaker A - 01:34:30

Thinking of your son now. Do you think he's still in the park?

Speaker B - 01:34:37

I Don't think he's gone too far. That's my gut. I just don't see. I think that at some point he would put on the brakes and go, okay, I'm not familiar with this area. I don't know any of these people. Aren't scared. I'm going to hunker down and try to calm myself. And like I said, that's going to be probably a quiet, quiet place or so.

Speaker A - 01:34:59

He doesn't know the park very well.

Speaker B - 01:35:01

You think or that's a hard call. I mean we've been here before, but I don't know how much he retains that visit. So he's having a good time offsc.

Speaker A - 01:35:13

But does he appare know the here?

Speaker D - 01:35:18

That's what you meant. That's what you meant.

Speaker B - 01:35:21

That's where you guys go.

Speaker D - 01:35:22

Yeah.

Speaker A - 01:35:23

Yeah. Okay.

Speaker C - 01:35:25

And even before when he was little and I'd push him in the stroller, I'd bring him here.

Speaker B - 01:35:28

I took him here like two years ago.

Speaker C - 01:35:31

Hey, this is s me around for.

Speaker D - 01:35:33

Right She s grandma.

Speaker A - 01:35:35

I feel like I should be an investigator. Your stor aren't matching off few town services.

Speaker B - 01:35:41

I'm gonna chalk it up that I'm so scared of about.

Speaker D - 01:35:45

Of a thinking string. Yeah.

Speaker B - 01:35:46

So I'm just whacked outuse I'm worried about myself.

Speaker A - 01:35:49

That makes sense. Yes, absolutely.

Speaker C - 01:35:52

Because I want him found as soon as possible. I will fall apart later.

Speaker A - 01:35:57

Okay.

Speaker B - 01:35:58

See?

Speaker A - 01:35:58

Stronger.

Speaker D - 01:35:59

Stronger.

Speaker A - 01:35:59

Stronger than.

Speaker C - 01:36:00

No, just compartmentalizing. And like I said, later I'll probably lie on the ground and scre but.

Speaker B - 01:36:06

You know'm gonn jump on my bike and go try to find him again.

Speaker A - 01:36:10

So I ll I would like completely understand Steve, but would you mind just staying and keeping Deborah company and just kind of being a support for each other just for a few more minutes. Is. Are you okay with doing that?

Speaker B - 01:36:28

Open our notes and get our stores.

Speaker A - 01:36:30

Yeah. Maybe get your stor straight before I come back. I got a meeting to go to. Just kiding.

Speaker B - 01:36:38

Those notes.

Speaker A - 01:36:41

Yeah, but back on script. Would you mind Sounds like a good time to do it. Report to each other and just, you know, so you're not by yourselves. Just for a little bit and then you know, maybe later just please the information, you guys. Oh, absolutely.

Speaker B - 01:36:57

We need to know.

Speaker A - 01:36:58

Yeah. As it's coming in CI ticket. Absolutely. And it was like I was saying to Deborra, she's been primary source for us of information. You guys are our primary source of information. You're going to be the voice of Liam for now. Okay. So that's why you are both very important to our. The ability to find him. Okay, I'm going to step away. I have to go to a quick little briefing over there with some of the higher ups, find out, and I'm going to get more information of what's going on over there. So I'm just going to excuse myself for a couple minutes. It won't be that long. Wendy's going to be here. A small talk.

Speaker D - 01:37:39

Chitat.

Speaker A - 01:37:40

Chitat. Yeah. And if anything comes up. That's great. You know, like I said, if you could, you know, please stay until I come back. Okay. Really appreciate it. If you need anything, you let Wendy know and she can wave at me to get it for you. You could text me. It's Mara. Yeaha Y so, Wendy, you can just text me if they need anything. I'll bring it over. Okay.

Speaker D - 01:38:02

Okay. Yeah. Sorry. Them.

Speaker A - 01:38:05

Yeah, you stay with them.

Speaker D - 01:38:06

I will. And. Yeah. And sc.

Speaker C - 01:38:11

Okay.

Speaker D - 01:38:13

Hey, Mara. Mara, can we turn this thing off?

Speaker A - 01:38:17

No, you can keep it.

Speaker D - 01:38:20

Well, you said scene, so I want to be off scene, but. Okay. Okay. Well, we tried. We tried.

Speaker B - 01:38:30

You guys pretty much covered all your list.

Speaker D - 01:38:33

I feel like I had to step away quite a number of times to relay information, so I feel a tiny bit out of the loop as to what we fully. What she fully covered because I was relaying info back to plans and the search manager as it came in. Exactly, exactly. Because such good information was provided. But it did seem like she was going through. Going through. Did you guys talk about outdoor experience and stuff like that? I noticed that part of the. Yeah, Okay. I figured she. Yeah, Very good. Yeah. I don't know how far she got. And this actually looks like she might have gotten pretty far.

Speaker C - 01:39:15

Yeah. Yeah.

Speaker D - 01:39:25

Is he a boy scouter? Liam involved with the scouts or anything?

Speaker C - 01:39:31

He's the game player.

Speaker D - 01:39:32

Okay.

Speaker A - 01:39:33

Y.

Speaker C - 01:39:33

He loves the games. Yep.

Speaker D - 01:39:43

But he doesn't have any sort of portable gaming device like a Switch or a Nintendo game boy that he could go off.

Speaker A - 01:39:50

Un.

Speaker C - 01:39:50

You gave him one?

Speaker B - 01:40:02

I don't think the camp would have.

Speaker D - 01:40:04

Well, that's a good point. They wouldn't have.

Speaker C - 01:40:06

Yeah, that part.

Speaker D - 01:40:08

Yeah. It was here, right? Seven hills? Yeah, I don't even think so. But, you know, sometimes kids sneak them in. Not fun. Mine used to get up in the middle of the night. Wellow my husband and I were.

Speaker C - 01:40:24

Yeah, seriously.

Speaker D - 01:40:26

Apparently they told us they're now in their 20s. That's the.

Speaker C - 01:40:31

So now they came clean.

Speaker D - 01:40:32

Exactly. They came clean. And we actually. It's kind of funny. We. Our younger one wanted a Netflix count we're like, absolutely not. But he oh, question for you.

Speaker A - 01:40:45

So it looks like they found a bike. We just want to get visual confirmation from you that this is likeike. I don't know if you can see that. It doesn't look like it's a Specialized though. But is it? No, no.

Speaker B - 01:41:07

Specialized bike.

Speaker D - 01:41:08

Not his bike.

Speaker A - 01:41:09

And is it a have special?

Speaker B - 01:41:13

Yah, that's not special. It's like a gray.

Speaker D - 01:41:19

This one's silverilver and it doesn't say specialize.

Speaker A - 01:41:23

It says Pro XTR on it. It looks like it's a BMX type bike. Not.

Speaker B - 01:41:29

No, I remember it was a special ass conn Great food.

Speaker A - 01:41:32

Is it kind of like a mountain bike?

Speaker D - 01:41:34

No, no, no, that's not it.

Speaker A - 01:41:36

Is it more like a mountain bike.

Speaker B - 01:41:38

It's like a.

Speaker A - 01:41:39

Like a hybrid.

Speaker D - 01:41:42

Huh?

Speaker C - 01:41:43

Like my husband's car a hybrid.

Speaker D - 01:41:46

What'd you say?

Speaker C - 01:41:46

Like my husband's car, a hybrid.

Speaker D - 01:41:48

Oh, I know. Yeah.

Speaker A - 01:42:04

Yeah. Got it.

Speaker D - 01:42:08

Are we back on?

Speaker A - 01:42:09

No, I'm going to the meeting.

Speaker D - 01:42:11

Oh, okay.

Speaker A - 01:42:11

Haven't gone to the thank you for.

Speaker C - 01:42:19

I SUPPOSED to warm up this afternoon, but I hope.

Speaker A - 01:42:22

I hope.

Speaker C - 01:42:22

I hope the is warm enough.

Speaker D - 01:42:24

I help did sen least it didn't rain.

Speaker B - 01:42:27

What's that?

Speaker C - 01:42:28

Did you send him with some heavy clothes?

Speaker B - 01:42:29

He had a sweatshirtts did he have.

Speaker D - 01:42:34

His blankie in his backpack, do you know? Or any of his fidget toys?

Speaker B - 01:42:38

They're usually left in there. So if he took his backpack there, that's where they usually are. So he probably has them.

Speaker D - 01:42:44

Okay, enough much.

Speaker B - 01:42:46

Did they confirm that he has his backpack the school?

Speaker D - 01:42:50

I don't know the answer to that question. They were gonna ask that was on there. Let's see if and this wasn't his shoe. Did you see this?

Speaker C - 01:43:19

Oh.

Speaker D - 01:43:23

She said no.

Speaker C - 01:43:24

Well, I don't remember having seen it.

Speaker D - 01:43:27

No.

Speaker C - 01:43:28

So I con with you.

Speaker D - 01:43:33

That's hilarious.

Speaker B - 01:43:34

I told him my head bullet point. I had no detail, so I can't even. I'm kind of making it a a messing them up, I'm sure. No, no, it's that part part of their training.

Speaker A - 01:43:44

Right?

Speaker D - 01:43:44

Yeah, exactly. Exactly ways Trust me, if you ask my husband any detail about our kids, he would literally have no idea.

Speaker B - 01:43:53

And we see things differently.

Speaker D - 01:43:54

Ye yeah. He blue shirt. What are you talking about? Right, right. But he would know things that he would know all the gaming stuff and I would have no idea. Like I know it's on a TV or a laptop. Yeah, yeah.

Speaker B - 01:44:10

My lack of information is.

Speaker D - 01:44:12

Yeah, it's.

Speaker C - 01:44:13

It's, you know, son in Lawah. You no, we got o I won't.

Speaker D - 01:44:22

Tell you what she said.

Speaker B - 01:44:24

This isn't my fault. This isn't my fault.

Speaker C - 01:44:26

No.

Speaker D - 01:44:27

Nobody'you'at work. Right.

Speaker C - 01:44:31

I was just glad you called me to let me know that he was.

Speaker B - 01:44:34

Supposed to meet park, ride the bikes. I got that phone call you never want to get.

Speaker D - 01:44:43

Right. That's no fun.

Speaker A - 01:44:45

Nope.

Speaker D - 01:44:48

Just curious if they provided any of this information. Did the school or the camp say that they had looked in X, Y and Z places? Did they give you any information about what they had done? I'm just curious. In the sheet that you got, they.

Speaker B - 01:45:03

Said they looked on their campus.

Speaker D - 01:45:05

On their campus. Okay.

Speaker B - 01:45:06

Yeah. And they couldn't find them.

Speaker D - 01:45:07

That's got it.

Speaker B - 01:45:09

They called on a creepyd I'm sure first.

Speaker D - 01:45:11

Okay.

Speaker B - 01:45:12

When he was missing.

Speaker D - 01:45:14

Got it.

Speaker B - 01:45:16

They did a quick search around there probably.

Speaker D - 01:45:19

And you said that they discovered he wasn't in a sleeping bag when they did the 4:00am bag check? That's what I heard. Okay.

Speaker C - 01:45:26

The was 4:00am or the 6:00am I.

Speaker D - 01:45:28

Speaker D - 01:46:01

Speaker C - 01:46:05

Of.

Speaker D - 01:46:06

Okay.

Speaker C - 01:46:07

Of it.

Speaker D - 01:46:07

That'good have we covered all of the information you were provided that would be relevant, or do we need to?

Speaker C - 01:46:21

Ye. Yeah, I believe so.

Speaker D - 01:46:22

Okay. Okay.

Speaker C - 01:46:23

Good._ather'Nice Gorgeous.

Speaker D - 01:46:51

Speaker D - 01:47:07

Oh, good.

Speaker C - 01:47:08

Yeah. Remember, I spend more time with him than you do. And I have from the very beginning.

Speaker B - 01:47:16

And you're better. You're a good listener and reader. Talk to your husband.

Speaker C - 01:47:26

Oh, you did?

Speaker B - 01:47:27

Speaker C - 01:47:31

Speaker D - 01:47:32

H so you didn't recognize that sneaker? That shoe? Okay.

Speaker B - 01:47:56

Speaker C - 01:48:05

Doing a submer subme Ye and.

Speaker A - 01:48:11

As.

Speaker C - 01:48:12

Speaker B - 01:51:39

Speaker D - 01:51:39

Speaker D - 01:52:47

Oh, okay. Okay. Nice.

Speaker B - 01:52:51

Not anymore.

Speaker C - 01:52:53

Cool.

Speaker D - 01:52:53

Still volunteering to be. Oh, that's nice. Yeah. Yeah, really nice. Who always to stay involved.

Speaker B - 01:53:01

Such a great organization. I have a lot of friends but I still stay talking about from search and rescue. So I kind of know.

Speaker D - 01:53:08

Oh, that's cool. Yeah, yeah.

Speaker B - 01:53:10

So I kind of mentioned that one of our get togethers said, you know, hey, has ever need any volunteer subjects?

Speaker C - 01:53:16

Sure.

Speaker D - 01:53:17

Yeah. That's great.

Speaker C - 01:53:20

Perfect. Yeah, that works. There was the time. I know.

Speaker D - 01:53:29

SP report.

Speaker C - 01:53:30

It was a time years ago BC before COVID We got a. Jonathan was called out in a search up north. It was a recovery and so he left. And about 15 minutes later I get a phone call from our daughter and she's all upset. Where's dad? I said he's not home. I need him. You have to call him back right away. I said, what's wrong? What's wrong? My next door neighbor who has Alzheimer's has disappeared. So I quick call Jonathan my. And he says I know why you're calling and I can't talk now. So what they did is they split the team. Half the team went north to do.

Speaker D - 01:54:11

The recovery and half the team went south and look for the.

Speaker C - 01:54:16

Look for walk away.

Speaker D - 01:54:18

Oh my gosh.

Speaker C - 01:54:19

And they found her as she was walking onto the freeway and they saved her life.

Speaker D - 01:54:29

Oh my gosh.

Speaker A - 01:54:30

Wow. Wow.

Speaker C - 01:54:33

My daughter called me later and said oh my gosh. Dad walked in in his uniform and had people doing things and everything.

Speaker A - 01:54:40

I never seen him like that.

Speaker D - 01:54:41

Oh my gosh. That's great. Yeah.

Speaker A - 01:54:44

Very, very proud.

Speaker D - 01:54:46

That's awesome.

Speaker C - 01:54:47

And a couple of years later she went missing again. My daughter had moved somewhere else, but particular lady, her name was Luba, went missing again and she was missing three days. Wow. And they did find her a lot. A lot.

Speaker D - 01:55:00

Oh my gosh. That's incredible.

Speaker A - 01:55:03

Very. Yikes.

Speaker C - 01:55:06

That actually that search made tv. Wow.

Speaker D - 01:55:13

Wow. That is kind of a long time to. And then it was, you know, still a rescue, not a recovery.

Speaker C - 01:55:20

It was right?

Speaker D - 01:55:22

Yeah. That's amazing. Yeah.

Speaker A - 01:55:30

Meeting.

Speaker D - 01:55:31

I know. I'm so curious what's. No, no, I don't.

Speaker C - 01:55:34

I'll stay here.

Speaker D - 01:55:35

I'll make sure I have been instructed to corral keep you guys here.

Speaker B - 01:55:44

Part of the training. Don't lose you'reah.

Speaker D - 01:55:46

Exactly. Exactly.

Speaker C - 01:55:48

Actually, don't laugh because as you said you were tempted to.

Speaker D - 01:55:52

Yeah. Well, when it took a long time for you to get here. Oh, yeah, absolutely. Yeah.

Speaker B - 01:55:58

That's a big. We answer some of the trainings that I was involved in that was part of the thing. Like, okay, you just duck away the o and then it's like, hey, where did they go? You know?

Speaker D - 01:56:08

Right, right. Y.

Speaker B - 01:56:10

You keep an eye.

Speaker C - 01:56:11

Yeah.

Speaker D - 01:56:12

Or that one of you would be so distraught. It would be a distraction to getting like, information or taking care. Attending to X, Y or Z. And I think those are very realistic.

Speaker B - 01:56:26

A lot of emotions flying around your loved ones.

Speaker D - 01:56:30

Oh, yeah, Yeah.

Speaker C - 01:56:35

I remember one of the things that they say training is that, you know, for the medical training that you'll be doing more medical training in real life.

Speaker D - 01:56:51

Than on search.

Speaker C - 01:56:52

Know that on a search.

Speaker D - 01:56:53

Oh, interesting.

Speaker C - 01:56:53

And that has happened numerous times.

Speaker A - 01:56:56

Wow.

Speaker C - 01:56:57

On planes. Anybody with any medical training. The doctors don't like to raise hand. Husb Ra.

Speaker D - 01:57:03

Raise his hand. Oh, wowah. Wow. Good for him.

Speaker C - 01:57:08

Yeah.

Speaker D - 01:57:08

Please.

Speaker C - 01:57:09

Driving down the street. Bicyclist gotott own car accident.

Speaker D - 01:57:17

Charge O. Nice. Wow.

Speaker C - 01:57:22

My job was always to call 911.

Speaker D - 01:57:24

That's a good job.

Speaker C - 01:57:26

And on the planes, go for the oxygen.

Speaker A - 01:57:28

Ah.

Speaker D - 01:57:29

Oh, yeah. Oxygen always Right. Exactly. Theyill drill that into our heads for sure. Yeah.

Speaker B - 01:57:39

There. Use it. It's like the wonder drug, apparently.

Speaker D - 01:57:42

Yeah.

Speaker C - 01:57:43

It's the one thing it can't hurt.

Speaker D - 01:57:45

Yeah, exactly. Yeah. Can't hurt life.

Speaker C - 01:57:50

Yeah. I've learned a lot from him.

Speaker D - 01:57:51

Oh, I bet. I bet. Yeah.

Speaker B - 01:57:55

He's a resource officer too.

Speaker A - 01:57:56

Right.

Speaker B - 01:57:57

See? He part of one of the law enforcement. Does he carry a gun?

Speaker C - 01:58:05

No, no, no.

Speaker D - 01:58:06

He's not part of that.

Speaker C - 01:58:07

No. Our son is. Does all kinds of training and executive protection. He's an emt.

Speaker B - 01:58:18

He protection medical all over the place in her family.

Speaker D - 01:58:22

That's handy.

Speaker B - 01:58:24

I thought I remember there's certain people on the team that are resource officers.

Speaker D - 01:58:28

They work for different departments.

Speaker B - 01:58:31

One of those guys.

Speaker C - 01:58:40

His background and training is market research. So he checks and researches.

Speaker D - 01:58:46

It's good to have one of those in the family.

Speaker C - 01:58:48

Yeah. He work for little companies like Visa, Clorox, that little.

Speaker D - 01:58:53

Those little old things.

Speaker A - 01:58:57

Hello, Stepen Debah. Hello.

Speaker C - 01:59:00

And your meeting went will?

Speaker A - 01:59:01

Oh, yeah. It's all educational, so it's kind of. I thought it was kind of interesting because you are off script. They know they're giving us tips on this is what you would be doing, should be doing. Which was kind of interesting in terms of operations and stuff. Steve, do we have. Do you have the name of your son of Liam's doctor and where he's at? He or she is Kaiser doctor Is it shadens or over the chane house? Do you know the doctor's name?

Speaker B - 01:59:41

Smith.

Speaker A - 01:59:41

Dr. Smith. A male or female?

Speaker B - 01:59:44

Female.

Speaker A - 01:59:45

Okay, do you have the Lori Smith L A U R I E? Sure. Do you have her phone number? Do you have her contact for her office? Is it like 925-555-1212? Yeah, that's it. One two, one two. Okay. All right. Yeah, we're gonna want to reach out to her and just talk to her about the medical condition, the diabetes and see what, you know, what are the adverse effects. I know, Deborah, you gave us some really great information and that's sort of a slow tapered process, but we just want to make sure there isn't anything in terms of coming from a clinical standpoint that, you know, might jeopardize even further his condition currently.

Speaker B - 02:00:43

Think that's a good idea.

Speaker A - 02:00:45

So see. Can you let ops know it's Dr. Laurri without of shade ones and 955551.

Speaker D - 02:00:57

You went like, literally let them know.

Speaker B - 02:01:00

Yeah.

Speaker D - 02:01:00

Okay. Or let them know exactly.

Speaker A - 02:01:05

It was so warm in there and.

Speaker D - 02:01:06

I was like, oh, my God.

Speaker A - 02:01:07

Read like. I have this warming vest which is great ca. Becausee it fits under the star jacket and it's all battery operated. But now I'm in the shade and I'm freezing cold. Tell me about it.

Speaker B - 02:01:17

My wife has one of those.

Speaker A - 02:01:18

She does. She have the liner one. I love it because it fits right under it.

Speaker B - 02:01:22

Yeah, it's just a vest. It's like almost like a ye. Like a down vest.

Speaker A - 02:01:26

Yeah, I have a couple of. I'm a big ro fan. I have the vests and I have a couple jackets. And. And. And now I have this thing which is great because I can use it for this stuff. All right, back on script. And then you just do this. And the newer ones apparently take two batteries, so I don't need it. Okay. Put it in medium. It can. Yeah, it can charge your phone. Just gotta have the cable and stuff. All right. I don't know.

Speaker B - 02:02:07

No, no new information from.

Speaker A - 02:02:10

Sorry. I do get to. I got to see the se. The search pattern. And our teams are really out there making a lot of headway, a lot of coverage. And we have something like 18 teams out there right now. 18 teams. They're really covering. Oops. Cut of. Off it. Steve, call.

Speaker C - 02:02:39

Hello, it's my wife. Hello.

Speaker A - 02:02:46

Is that Liam by any chance?

Speaker C - 02:02:50

Hello? Hello?

Speaker B - 02:02:52

Send to my. Did you guys send to my house?

Speaker C - 02:02:55

That.

Speaker A - 02:02:56

I don't know. I believe the police went over, though. From what I understand. I Mentioned last timeocolate.

Speaker C - 02:03:09

Yes. Okay. Okay. Okay. Thank you.

Speaker A - 02:03:12

Love you by hey, Deborah. Who is that? If I can ask.

Speaker C - 02:03:16

That was. That was just one of my neighbors.

Speaker A - 02:03:22

O okay. Is everything is okay or did they have anything to report?

Speaker C - 02:03:26

They had nothing to.

Speaker A - 02:03:28

Nothing to report.

Speaker C - 02:03:33

As I was leaving I saw them.

Speaker B - 02:03:35

I sory to interrupt. I just want to say hello of this whole timer. Nice to see you buddy. Walter, thanks for coming out today. Thanks for having me. Check in later.

Speaker D - 02:03:43

Thanks again.

Speaker C - 02:03:45

You know I did take Liam a couple of days ago for a chocolate to Noah's for a chocolate chip bagel and he just loves those. He goes nuts over those. Yeah, yeah.

Speaker A - 02:04:06

Did the neighbor have anything to say about the chocolate chip in.

Speaker C - 02:04:09

No, no, no.

Speaker A - 02:04:11

Can we confirm whether or not they went. They searched over at the bagel place.

Speaker C - 02:04:19

Okay.

Speaker D - 02:04:19

They weren't going to but I'll firm but off script for a minute. Y. I was asked if you guys have any information in your background info to call a doctor. Like is there someone who's role playing a doctor or did you get any more information about the medication and the effects of.

Speaker C - 02:04:40

Okay, the questions were asked. Yes.

Speaker D - 02:04:42

No, but it did. So she wanted to know is there a role player who's playing the doctor? I could call like pretend call.

Speaker A - 02:04:49

Okay.

Speaker C - 02:04:50

Okay.

Speaker D - 02:04:50

Okay. And then.

Speaker A - 02:04:52

And yeah, let's double check on that. Make sure that they have searched the vagl play. Yeah.

Speaker D - 02:04:57

Okay.

Speaker A - 02:04:58

That it's come up again.

Speaker D - 02:05:00

Okay. Okay.

Speaker A - 02:05:02

So in so it seems like it's an important spot for him to make.

Speaker C - 02:05:05

Sure that they have cert I've taken.

Speaker A - 02:05:07

Him because it is across the street. It's just across.

Speaker D - 02:05:10

It isn't across the street. It's actually down in country with shopping.

Speaker A - 02:05:14

Yeah, well, I mean it's not that far.

Speaker D - 02:05:16

It's not that couple blocks away.

Speaker A - 02:05:17

Rightr. He could down he's got a bicycle.

Speaker D - 02:05:21

Yeah, yeah, he could get there but I'll definitely go do that. But they wanted more information about how long if he hasn't had this medication, how long would it take for him to just be completely withdrawn? I know we said it was like one to two hours before he starts feeling the effects, but do we have any about how long it would take for him to just kind of crash.

Speaker A - 02:05:41

Out and has that ever happened where.

Speaker D - 02:05:45

He crashed out where he didn't take his medication and then it became soow.

Speaker C - 02:05:49

It was slowly I think once at school and they noticed, you know, we told the school in advance that you know he was and that he needed his insulin to make sure that he did it once school where he was kind of doing this getting kind of.

Speaker D - 02:06:08

On response and do we have any idea how long it was A long time of day that happened. Okay.

Speaker C - 02:06:14

So we took his insulin at he didn't take it at breakfast. That and it was at lunchtime and he started.

Speaker A - 02:06:21

Okay so like around 11:30 or something. CL 12:00 O 12:00 you be completely Caton.

Speaker D - 02:06:27

Okay, thank you.

Speaker A - 02:06:28

But the thing is and you said.

Speaker D - 02:06:30

His dosage is at it would have been at 7. Between 7 oock and 7:30 the night before.

Speaker A - 02:06:37

So at'seven 30 though he takes it in the morning.

Speaker D - 02:06:40

Okay, so he missed that one. So he would have had it I'mrry.

Speaker A - 02:06:45

So they had like 6:00 or 6:30.

Speaker C - 02:06:48

6:00.

Speaker D - 02:06:48

So if that was the last time he took his medicine he would last until noon today.

Speaker C - 02:06:54

It's if he had taken the medicine.

Speaker D - 02:06:56

If he had.

Speaker C - 02:06:56

Yeah.

Speaker A - 02:06:57

Oh I He hadn't taken the breakfast one but I think they have in there that he should have taken it at 6:30. And Debah is saying 7:30.

Speaker D - 02:07:07

Are we talking about breakfast or Sorry yeast.

Speaker C - 02:07:10

We also don't know if he had.

Speaker D - 02:07:12

I thought dinner was had enough food to eat.

Speaker A - 02:07:17

Well they. What time did the sleepover start? Do you know what time it started? Did he have dinner before leaving or.

Speaker B - 02:07:25

At the dropped him off at about prob 5 o'clock?

Speaker A - 02:07:28

5. Did he have dinner beforehand?

Speaker B - 02:07:30

They had stuff there.

Speaker A - 02:07:32

They had st there. Okay. Yeah. So at least we know he had the dinner.

Speaker D - 02:07:36

So it would be.

Speaker A - 02:07:37

And then also if you could find out whether or not Sophia is interable interviewable it the friend she was awake morning the really find out if she's available now that's important.

Speaker C - 02:07:52

Okay.

Speaker A - 02:07:55

Thank you Wendy. Y'all are done by the time I came back. What's that? Are you done by the time I I think we were done like 20 minutes. I just kid kind of. We got some. I got the doctors information or I should say I inputted I created the doctor'information Sounds good. What I like about these mock searches and scenarios is that there's all the stuff that comes up can come out of that you don't think of when you're putting it together like oh wait a minute. That's right. I really like that chocolate chip bagel. Is that a wink wink wink. That was something I said earlier on get searched over those bagels. You did say that. Yeah. I hope they sent somebody over there. Didn't I say that early?

Speaker C - 02:08:59

Absolutely.

Speaker A - 02:08:59

Ok. And you said the blanket, the baby Blanket.

Speaker C - 02:09:02

We had a favorite food or anything like that. Yeah. And so we talked about it. Yes, we did make a note on it.

Speaker A - 02:09:10

Did you hear that, Chris Young? That was a while ago that the chocolate ch bagel came up. That does sound really good right now with some cream cheese on it. The chocolate chip and the cream cheese combination. That would be really good. That would be really good. Coff you want me to call for it? You want call for some bage I and coffee? You want to get on your bike and go pick it up, Steve, I'll let you go for that sear.

Speaker B - 02:09:42

I already searched that area.

Speaker C - 02:09:43

O okay.

Speaker A - 02:09:44

Oh, you already searched Noah's bagels.

Speaker B - 02:09:46

Oh, yeah.

Speaker A - 02:09:46

Oh, you did this morning. Oh, this morning. Okay. You did a search. Okay.

Speaker B - 02:09:52

You'll like hanging out a cup of coffee.

Speaker A - 02:09:54

I got that makes sense. Do you have your bike here with you? Ye what kind of bike is it? Like is it a regular bike though or e bike? Okay. I was just looking at e bikes yesterday because I had a rad and I bought it used and then I sold it because it was a folding one. I thought, oh, I can load in the car and I could, but they're so clunky and they're really uncomfortable to ride the geometry on those things. So I'm looking at an knee bike that's a regular bike, but they're all built like motorcycles and I already have one of those sort of.

Speaker C - 02:10:29

Oh, oh, you are.

Speaker B - 02:10:31

That's an e. Do some some research because I have an e bike too.

Speaker A - 02:10:37

What do you have?

Speaker B - 02:10:38

It's called a Bulls B U L S. It's a mountain bike. O But there are. So there are options now. Yeahord and lighter. So there are sort basic you just like doing.

Speaker A - 02:10:51

No, I already know. I want a Class 3 and I'm looking at the vilo track. Yeah.

Speaker C - 02:10:56

Do you belong to like a bike.

Speaker A - 02:10:58

Team or b oh, the bike team here or do you bike regularly with a? I used to be a pretty hardcore cyclist, but road and when e bikes kind of came on the scene, I was sort of poop pooo in the e bike and how thought my knees rolled her. I'm like, oh yeah, the e bike would be really nice.

Speaker C - 02:11:19

The reason I'ASK we have a friend who is not a professional biker but he's part of a team and they he's biked all over the world and de's done all the research into the bike.

Speaker D - 02:11:29

There was a request earlier that whether or not we could interview Sophia and they never heard back. So they're going toa Renew that request and find out.

Speaker A - 02:11:37

Yeah. Because we do have her number. And then what about. Did they say anything about Noaah's?

Speaker D - 02:11:45

They were confirming whether or not it had been checked. They were now putting it on the map, like indicating where it was on the map. But I don't know that they didn't search it. But they're going to renew that.

Speaker A - 02:11:59

Okay, good. They should because it's a key point of interest for him.

Speaker D - 02:12:04

Yeah.

Speaker A - 02:12:05

And are.

Speaker D - 02:12:06

Are we on or off the record?

Speaker A - 02:12:08

Oh, now I'm going back on the record. Oay for like two seconds.

Speaker C - 02:12:11

Okay.

Speaker D - 02:12:11

Cause I had a question.

Speaker A - 02:12:12

Off the record. Oh, okay. So we can confirm this is Liam here. That's Liam and his bike.

Speaker C - 02:12:20

Yeah. Yeah.

Speaker A - 02:12:20

Look like.

Speaker C - 02:12:21

Yeah.

Speaker B - 02:12:21

Where that come.

Speaker A - 02:12:22

Yeah, I don't know. Somebody posted.

Speaker C - 02:12:27

Somebody posted it wrong there recent posting.

Speaker D - 02:12:31

I mean like now they want to know if it's a sighting, I think.

Speaker C - 02:12:35

Thank you. That's my question.

Speaker A - 02:12:37

Yeah. Okay, good.

Speaker B - 02:12:40

Searched.

Speaker A - 02:12:40

I think it looks like it's a descriptive picture. So just confirming. That's. That's him.

Speaker D - 02:12:46

Hold that. Yeah. Whoever posted that, the dad provided it, but he doesn't remember.

Speaker A - 02:12:54

O. Yeah.

Speaker B - 02:12:55

6:30 this morning.

Speaker A - 02:12:56

It was interestingly, is a picture of him in Heather's farm.

Speaker C - 02:13:00

So it's like here he is around.

Speaker A - 02:13:04

Yeah, no, he looks like he's all by himself in the parking lot in that picture. Like it does look like it was taken about three seconds ago though.

Speaker B - 02:13:14

Taking pictures of would. He doesn't have a phone.

Speaker A - 02:13:17

That's funny.

Speaker D - 02:13:18

I'm assuming that you don't know the answer to this question, but when you drop at camp, I assume that the camp. The people running the camp take his medication and they're the ones who give it to him at the appropriate time. So he wouldn't have had it in his backpack.

Speaker A - 02:13:37

I heard on the radio that he.

Speaker D - 02:13:40

He doesn't have his backpack.

Speaker A - 02:13:41

Earlier they were confirmed he didn't have his medication on him.

Speaker D - 02:13:45

Oh, okay. That's where I was.

Speaker C - 02:13:46

Okay.

Speaker D - 02:13:47

Thank you. Just cute.

Speaker A - 02:13:52

Okay.

Speaker B - 02:13:53

That's all.

Speaker A - 02:13:57

Just for the canal. Just the canal. So Steen. Barbara Debah. Bad interviewer. Is there anything else you can think of that would assist with creating this image and profile of Liam? Like anything characteristic wise with personality?

Speaker B - 02:14:32

No, again, it's just the. It's the diet. It's the blood sugar that's really considering every minute that goes by.

Speaker A - 02:14:43

Okayeah. Would he not to seek out that bagel or something? Maybe ask somebody for help or wouldn't he do that?

Speaker C - 02:14:53

He wouldn't ask Anybody for help?

Speaker D - 02:14:55

Because that's one of the things the like strangers doesn't feel comfortable. Yeah.

Speaker C - 02:15:02

If he were hungry or whatever and he has great memories of the two of us going to the bagel shop, he might. Okay, he might.

Speaker A - 02:15:15

Would he feel comfortable? He doesn't have any monetary means. Would he be comfortable going in and asking them for a bagel? Does he love it that much that he would do that?

Speaker C - 02:15:26

As you said, he isn't concerned with.

Speaker D - 02:15:29

Money so he wouldn't even necessarily know that he would need it. He might just walk in and order a baby.

Speaker C - 02:15:34

When I take him in, I pay for iteah. So you take them, you pay for it, do things, we pay for it. So it not, it's not a consideration.

Speaker A - 02:15:44

So the concept of having to pay for something to get goods is not there. So he would just go in and.

Speaker C - 02:15:50

Order like if he goes in first.

Speaker D - 02:15:53

You ordered order, not pay. Magic. I need a nana.

Speaker A - 02:16:01

We all need it. Yeah.

Speaker B - 02:16:04

Do you guys have any more questions.

Speaker A - 02:16:05

For me right now? You know, I feel like there might be some questions that are going to come up.

Speaker B - 02:16:16

Would you object if I see what's going on with the rest of the management team to kind of check in and see what maybe there's Smith they.

Speaker A - 02:16:27

Can share if they're comfortable with them. Yeah. What kind of questions you might you have because maybe we can actually find them out for you and kind of get it a little more concise.

Speaker B - 02:16:36

Well, you had mentioned a search area and a monitor with tracks and stuff. I might be able to assist if I saw where they've been where I've been with any.

Speaker A - 02:16:45

Yeah, yeah.

Speaker B - 02:16:45

So grandma's taking them and that type of thing.

Speaker A - 02:16:48

Wendy, let's go find Ops and ask them if it is okay if Steve could, you know, look at the search area map and if he could possibly offer some insight into it because obviously it's a really tight quarters around there. So we don't want to, you know, we don't want you getting hurt with people moving around a lot. So just see if it's okay. If not, we'll try to, you know, explain as best as we can for you that information. Information. So offscript, we do have some potential candidates for the next academy coming around so they probably going to come over here so about what's going on. So if you want to like should we get some eyedropops, get you all teary, rub those cheeks, make you all red.

Speaker B - 02:17:50

Maybe we'll start challenging theviewer.

Speaker A - 02:17:52

No.

Speaker B - 02:17:54

Ex.

Speaker A - 02:17:57

I'm not religious about any. Oh no. Exactly. I'm going to stop this because I look back.
